#### Recalls Family

A query in last week's Free Press about the identity of the president of the Canadian National Exhibition, William H. Evans, brought a reply to the paper Friday. Bob Winton recalls the Evans family well. The children of his sister, Mrs. Jake Bauer, played with the Evans children. He says the youngsters were clever and have all done well. They lived somewhere near Mrs. Kay Alger's home while they were here.

#### PROFIT AND LOSS

Keep untreated test strips when you use any farm chemical. Then you'll have an accurate record of the profit or loss of the practice. You'll also know whether any crop injury is caused by chemicals or by something else. In addition, you'll know what chemicals, rates etc., are best for you under your own set of circumstances.
