

FUTURE N.H.L. STARS Steven McKnight and Jeff Townsley had a chance to chat with N.H.L. Oldtimer Harry Watson Friday night after the youngsters played an exhibition game at the arena. The two kiddies played in the Atom League game and cornered the Oldtimer before he went on the ice to play against Acton Tanners.

SENIOR CAGE QUINTET

SENIOR BASKETBALL squad from Acton high school suffered a 52 to 37 defeat at the hands of the Arthur team in Acton high school gymnasium. The game was fast and was enjoyed by the large crowd of local supporters. Front row left to right are Phil Dupuis, Ron Hagan, Gerald Dick, Dave Black and Allan McNabb. Back row left to right are teacher-coach Ron McCallum, Dave Woodhouse, Steve Johnston, Phil Marzo and manager George Beisher. Missing when photo was taken was George Wallis.

N.H.L. Old Timers Attract . . .

(Continued from Page 4)
Brenda Denny, Debbie Papillon, Lynda Roe, Diane Charrette, Kathy Papillon, Kaven Townsley, Heike Bollert, Linda Perry and Dolores Jordan concluded the display.

Lucky Draws
Old Timer goalkeeper Ivan Walmsley drew the lucky tickets from a drum for three draws, assisted by Bill Buchanan and Don Ford. The Green watch was won by J. H. Rainford of Unionville on a ticket sold by Barry Inscow. The match clock went to Steve Richardson of R.R. 2, Acton.

The final draw for a pair of N.H.L. blue tickets for Saturday's game in Toronto was won by Fred Landry of Acton. Officials were generous in their praise for those who helped make the evening a success.

Lineup for the N.H.L. Old Timers:
Ivan Walmsley, goal, Bob Goldham, Bob Robertson, Murray Henderson, Barry Cullen, Bob Beckett, Brian Cullen, Sid Smith, Ron Hurst, Jack Hamilton, Murray Ezeard, Cal Gardner, Harry Watson, John McCormick, Danny Lewicki.

Furnishing Room at Manor Institute Centennial Project

Mrs. C. Britton, Blue Springs Road, Nassagaweya was hostess to the Dublin Women's Institute members for their monthly meeting last Thursday evening. The singing of the Institute Ode and reneating of the Mary Stewart Collect and the Lord's Prayer opened the meeting.

Minutes and Roll Call
The president, Mrs. Britton, chaired the meeting, and Mrs. E. Norton, the secretary, read the minutes and called the roll. The roll call chosen by the convener, Mrs. F. McCarron, was "How to be a good citizen," and was answered by many good suggestions by the members as to ways and means that make good citizens in a community.

Resolution regarding the retention of Green Belts was submitted, but was tabled for further information and study.

A grant of \$10 was approved to be forwarded in the interests of the Halton Musical Festival.

Final plans were made for a bake sale to be held in Acton next Saturday with a committee composed of Mrs. E. Norton, Mrs. C. Armstrong and Mrs. N. Douglas to look after the details.

TB, Cancer
In view of the TB clinic being held in Brookville Hall in mid-March, Mrs. Charles Thomson recruited volunteers to distribute cards and literature to the many homes in the district.

As April is the month to canvass in the interests of Canadian Cancer Society, Mrs. Calvin McIntyre agreed to be captain again, and requested the usual good support of the ladies in canvassing the district assigned to the Dublin Women's Institute.

Girls Entertain
"The Club Girl Entertains" is the popular training school for the 4-H girls and 15 girls have joined up and attended the first two meetings and are showing considerable interest under the leadership and guidance of Mrs. F. McCarron and Mrs. G. Thomson.

A gift will be forwarded to a member who left the district. A family in the neighborhood who has met with misfortune will be remembered with a grocery hamper, and donations will be re-

ceived from members on Saturday, February 26, at the bake sale. Tentative plans for a euchre and penny sale to be held in Acton the latter part of April were approved.

Will Furnish Room

S. Allen, superintendent of Halton Centennial Manor, attended the meeting and outlined the plans of Martin House which is now being built in conjunction with the Manor. It was his second visit to the Institute, and he was able to give requirements to the ladies at this meeting.

As a centennial project the Dublin Women's Institute have accepted the responsibility of furnishing a bedroom on the second floor of this new building. A neat brass plaque on the door will designate that the room was furnished by Dublin Women's Institute.

Much interest was shown in the architect's drawings displayed by Mr. Allen, who invited the ladies to visit the Martin House at a later date when construction will be much further advanced. The president thanked Mr. Allen for attending the meeting, and giving interesting data regarding the new building.

Mrs. M. McCullough gave a thought-provoking talk on the motto, "Life is like a garden, it bears the seed we sow."

Buy Canadian
Following the theme of the roll call, Mrs. F. McCarron, gave a short address on "Citizenship" noting various ways that members could benefit the community by their presence, and urged the ladies when making household purchases; to remember to buy goods with the "Made in Canada" stamp.

A friendly chat-cha was enjoyed over a delicious lunch served by the hostess, Mrs. Britton, Mrs. C. McIntyre and Mrs. H. Blyth. Three daughters of the home, Misses Judy, Marlene and Sharon Britton, also assisted in serving the lunch.

How to know when you're well off.

Think positively. You're well off when you're comfortable. You have a feeling of well-being.

When you're not well off, you feel uncomfortable. Your skin is dry and itchy, your kids are coughing and sniffing, your throat feels dry and rough in the morning. First you're too hot, then too cold. You're uncomfortable because the indoor climate in your home has fallen into the white area of the chart.

In countless Canadian homes dry air causes comfort problems because comfort involves more than just heat. It involves humidity too. Here's how it works. Humidity is the amount of moisture per cubic foot of air. When air is heated it expands, along with the moisture it contains. The result is less moisture per cubic foot of air—therefore a lower relative humidity. The air becomes thirsty and draws moisture from the surroundings including your body. When moisture evaporates from your body, it takes heat away and you feel cool. The family

complains and you turn up the thermostat and pay a bigger heat bill.

Comfort is when humidity and heat are properly balanced. On the average, to keep comfortable you should maintain a relative humidity of 35% and a temperature of 73 degrees. That will put your home well within the comfort zone or shaded area of the chart.*

Modern gas heating systems can give you the correct comfort level automatically because gas heating controls humidity as well as heat. We'll help you achieve the proper indoor climate in your home . . . and save you money doing it.

With modern gas heating you know you're well off. So call your heating contractor, Department Store or Gas Company. Phone or write to your local Gas Company for a free "Comfort Is" brochure.

*Field tested by the American Society of Heating Refrigerating Engineers to be found the most effective comfort zone for 95% of the people surveyed.
