

School children's work displayed for first time on arena floor

For the first time since the new arena floor was installed, school children's work was displayed along the front end of the arena section. The display gave fair patrons a better opportunity of viewing the excellent exhibits and made judging an easier chore.

Following are the winners listing schools attended. In the event of a Robert Little school winner, the term is abbreviated to RL, and likewise the M. Z. Bennett school becomes MZB.

New grader for township

Nassagaweya Township Council last week gave the final reading to the by-law authorizing the purchase from current revenue of a new \$28,868.85 road grader.

The grader, equipped with a snow plow wing and winnow eliminator, will replace the present grader in use in the township. The present grader was

given a \$9,000 trade-in allowance, and council will pay \$10,000 toward the new one this year and the balance of the cost, \$9,568.85 on February 1, 1967.

Because the new grader will take up so much room in the works department shed at Brookville, council agreed to sell by tender an old crawler tractor and pull-type grader that have been stored there and unused for years. The clerk was authorized to advertise them for sale to the highest bidder.
