

YOUNGSTERS FLOCKED to the Legion Saturday to register for Legion Minor hockey. Waiting their turn as Gordie James takes names are

Russell VanFleet, Gordon Toth and Steven McKnight. Teams are being lined up waiting the start of hockey.

Multiple Sclerosis group to gather Halton statistics

Mayor Richard Cummings of Oakville was elected Chairman of the newly organized Oakville Chapter of the Multiple Sclerosis Society of Canada at a meeting held in his home, Oct. 3. Serving, with Mayor Cummings will be Ernest J. Bottoms, vice-chairman; Mrs. James Kruff, secretary, of Burlington; J. B. Mockford, treasurer; DR. R.D. Kunica, medical advisor; Brian W. King, legal advisor, of Oakville.

Leslie Harper, the Society's Ontario Field Development Officer, chaired the meeting and encouraged the Chapter to be active in the lives of MS patients and told the group that the secondary effects of their effort would spread into the country and create an awareness of the need for total community involvement in this area of disability.

Anxious to begin work without delay, Mayor Cummings called for the formation of a visiting committee and Mrs. Willma Chapman of Oakville was elected chairman with several others volunteering to work on this committee whose job, in addition to home and

hospital visiting, will include gathering statistics on the incidence of Multiple Sclerosis in Halton County. More volunteers are needed, not only as committee chairmen, but as Chapter representatives in Milton, Acton and other areas of the county. Anyone in the Halton County area interested in working with the Oakville Chapter is invited to write to Box 221, Oakville.

Halton West Conservatives form new riding association

A new local political riding, formed by the provincial redistribution that split the present Halton riding in two, saw its first political party executive named recently.

About 75 attended a meeting in the Estaminet restaurant in Burlington to launch the "Halton West Progressive Conservative Association". The new riding

takes in all of Burlington, Nassagaweya Township and Acton, plus the top 10 lots of Esquesing Township (north of 22 Sideroad), while the remaining portion of the former Halton riding, including Milton, Georgetown, the lower 22 lots of Esquesing and Oakville will form a new Halton West riding.

Andrew Frame of Burlington was selected to chair the new riding's P.C. Association. Rev. Andrew McKenzie of Acton was named first vice-president; Mrs. Len Andrews of Campbellville second vice-president; Mrs. Michael Sprung of Burlington secretary, and John Savachuk of Burlington treasurer.

Mr. Frame is a past president of the Halton Young Progressive Conservatives Association, and active in the Burlington area as a member of the Public Utilities Commission.

Wes Beatty of Acton chaired the meeting until the election. Approval of a new constitution was among the items of business on the founding conference agenda. Members were

Must make sure windows are clear

Finding frost on the windows of your car these mornings?? Better make sure you clear it off before you start driving.

Effective October 1, it is an offence in Ontario to drive a motor vehicle on the highway unless the windshield, windows on either side of the driver and the rear window provide a clear view of the roadway and vehicles approaching from either direction. The provision respecting the rear window does not apply where the motor vehicle is equipped with a mirror securely attached to the vehicle in a position to give the driver a clear view of the roadway, in the rear, other than through the rear window.

Drivers found in violation will be liable to fines not less than \$10, nor more than \$100. Their licenses may also be suspended for a 30-day period.

Drivers urged to seek new members as soon as possible.

M.P.P. George A. Kerr of Burlington attended and hinted there might be a provincial election next year.

Begin construction soon on new Erindale College

Excavating for the foundation of the first building at the University of Toronto's Erindale College, 2 miles west of the downtown St. George Campus, will begin about the middle of October, President Claude Bissell has announced.

The all purpose one and two storey split-level brick and concrete structure will cost nearly \$2 million, including furnishings and equipment. It will accommodate a projected initial enrolment of 200 students in arts and sciences and a teaching staff of 32.

The building will be erected at the northwest corner of property purchased early in 1965 from the Erindale Sand and Gravel Company. The site is a short distance east of Mississauga Road, just north of No. 5 Highway, and west of the Credit River.

Erindale College is the second of two suburban colleges launched by the University of Toronto. The first, Scarborough College, 21 miles to the east of the main campus, is now in its second year of full time operation and has about 500 students in general arts and science.

Erindale has been a fully-functioning college for the past two years also, although its students have all been taking evening extension courses leading to B.A. degrees in Thomas L. Kennedy Secondary school, Cooksville. The fall of 1967 will see the first classes for full-time students.

Nassagaweya Council Briefs

At last week's meeting of Nassagaweya Township Council:

● Councillors sat out the three and a half hour meeting, shivering and wearing overcoats for warmth. The furnace in the building had quit operating earlier in the day, and the clerk was unable to contact a repairman before the meeting.

● A representative of the Ontario Department of Transport was asked to visit Nassagaweya and view a current problem of concern — people who leave old cars and wrecks parked alongside the road allowance. Discussion brought out the fact the township could pass a by-law covering the situation but it was "very complicated" and hard to enforce.

● Members wondered about the possibility of opening a new dump site near the Esquesing-Nassagaweya township boundary, and having Esquesing Township share the cost and use of the new dump.

● A resolution from an N.D.P. and Oakville Labor Council taxation conference, urging the provincial government to take over the costs of education, welfare, hospital construction and ambulance services, was filed.

● Deputy Reeve William Hoey suggested next year's

council should allocate some funds for grants to charitable organizations. The council turned down a grant request from the Salvation Army because the group receives a county grant.

● The Roads Committee was asked to investigate a request for another street light on the Campbellville Road at the north end of Brookville village.

● Accounts totalling \$1,674.83 were approved for payment. They included a bill for \$1,100 covering a survey for a development road north of Highway 401 near Campbellville.

● Copies of a speech on school grants given recently by J. R. Thomson, assistant superintendent of the Supervision Division, Ontario Department of Education, were distributed to members. Deputy Reeve Hoey, who had heard the speech, said it really explained the school grants system and he had obtained copies of the talk for the other councillors.

● Council adjourned the regular meeting at 11:30 p.m. and went into Committee of the Whole to deal with two applications for land separations.

● Discussion on the Plunkett Report was held over until all members had a chance to read the booklet.

Former minister speaker at Nassagaweya Thank-Offering

The Women's Missionary Society of Nassagaweya Presbyterian Church held its thank-offering service on Thursday, October 6, at 2 p.m. Owing to the illness of the president, Mrs. Mulren, the vice-president, Mrs. Velma Norris presided.

About 60 visitors from Guelph, Acton, Lowville, Eden Mills, Omagh, Milton, Morriston, Campbellville, Kitchener and Ebenezer churches were interested listeners to the service of worship. The hymn "Jesus Shall Reign" was sung, followed by recitation of the Lord's Prayer in unison.

After words of welcome to the guests by Mrs. Norris, the Rev. D. Nicholson read Acts 16, verses 9-24 and led in prayer. Mrs. A. K. Griffiths of Lowville sang two solos, "The Prayer of Consecration" and "Whither I Walk". These were truly the gospel set to music and were received with great warmth by the audience.

Mrs. E. Dredge introduced the guest speaker, the Rev. Frank Lawson, who is presently minister of the Presbyterian church in Southampton and who was minister of the Nassagaweya and St. David's churches from 1936 to 1940.

Mr. Lawson's topic was "Christian Missions in 1966". He spoke of our changing world, where we must now ask ourselves should I give my dollar, my daughter or my son to the mission field or should we keep our gospel to ourselves? The missionary church has not changed, even though the last missionary has recently had to leave China.

He also told us that the Eastern religions have everything that we have, except Christ. In

shop will be held on Nov. 4 for the purpose of assisting members in adapting to this new structure.

Nurses elected to the Chapter nominating committee were Mrs. Harold Nicholson and Mrs. William McNairn of Burlington, and Miss Ann Tucker of Georgetown.

Crossroads Africa reviewed for nurses

The annual dinner meeting of the Halton County Chapter, Registered Nurses' Association of Ontario, was held last week in Burlington with 83 nurses attending. Guest speaker at the dinner was Dr. John Sibley, consultant in Internal Medicine and head of the Department of Medicine at the Joseph Brant Memorial Hospital.

Dr. Sibley's topic was "Operation Crossroads Africa," an international project in which he has been involved since 1960, at which time he gave voluntary medical service in Africa along with 49 other professional people from the Hamilton-area.

Dr. Sibley explained that the Crossroads Africa program was a vehicle to recruit young people such as university students, nurses, teachers from different

racings and backgrounds, to go to Africa in the summer to live and work with their African counterparts. The aim is to enable them to get to know each other as people.

The speaker illustrated his talk with a film entitled, "Crossroads in Africa", which showed African and volunteers working together building schools and hospitals to meet the needs in the villages.

Miss Ruth Milne, president of Halton Chapter, introduced Miss Laura Barr, executive secretary of R.N.A.O., who reviewed current association projects, and asked for continued unity from membership.

Mrs. Hugo Kay, District 4 President, referred to R.N.A.O.'s new structure and informed the members that a District Work-

you just threw the biggest party of the year. no one was too hot. no one was too cold. no one was stifled by cigarette smoke.

want to know why?

Your modern gas furnace was serving you faithfully, balancing the heat and humidity, forcing a constant supply of fresh filtered air into every room of the house.

The evenness of automatic gas heating never gave the air a chance to get overheated from too many people, or clogged by cigarettes. Constant circulation never allowed the air to settle into a cold pocket.

And the filter in your gas heating system removed dust and pollen from your home. That makes cleaning up both before and after the party a lot easier... plus helping keep everyone comfortable.

So go ahead. Live it up... any way you want to. See your heating contractor, department store, or gas company.

UNITED GAS
With natural gas, you can take comfort for granted.
