### Laymen's Sunday at United Church

Fawcett Eaton spoke on his experiences in India during the Sunday service at the United Church. It was laymen's Sunday, and others taking part were Mrs. A. Long, Ivan Harris and Harvey Kirkwood.

Mrs. G. Harris played the organ.

Mr. and Mrs. Eaton spent some months in India with son the Rev. Bruce Eaton and his family. He said India is the perfect example of an irresistible force meeting an immovable object. He listed "bars" which hold a growing India prisoner, including poverty, lack of education, religious attitudes and climate.

Rev. D. I. Engel was conducting the service at the Stone Church, Eramosa.

### Driving students see radar operation

Constable Mervin Harness of the Acton O.P.P. Detachment visited the Acton high school Thursday afternoon of last week to instruct students taking the driver training course on how police radar works.

The constable had the radar attached inside the cruiser in the same manner used when speeders are caught, to point out how the equipment operates. He was asked many questions which he capably answered.

As a result of the knowledge gained by the students, no doubt when they become licensed drivers they will obey the speed limit signs—at least the police hope so.

### Begin walls hydro building

Footings have been poured, the foundation cement block walls installed and the ground levelled at the new hydro building site on Alice Street.

Wednesday masonry workmen began laying the main exterior walls to support the steel for the roof. After the walls are finished and the steel placed, the roof will be completed to close the building in.

Work is expected to proceed as rapidly as possible in order that inside finishing can be started before bad weather sets in.
