May 8: Doves, by a one point margin, finished in top spot, for the conclusion of the regular schedule. Headpin Hiltes

Another Major League banquet has come and gone and like all the league prexy, Bob Agnew's undertakings along with his executive, it proved to be an A number one affair. As vice-president Tinnie Masales remarked, it gave the ladies a chance to see what fine fellows their husbands and boy friends with on Thursday nights. Stan Haennell of La-batts made an appearance to present his company's awards to the high triple bowlers of the month. Chuck Henderson of O'Keefe was on hand with the O'Keefe bowler of the month crests. The election of officers for the 1967-68 season saw the incumbent president Bob Agnew and treasurer Bill Shannon returned to office. Newcomers to the executive are Jim Kelman, vice-president and George Williamson, secretary — C.O.B.A. president, George Barber wishes to draw attention of all C.O.B.A. members to the first annual meeting of the organization at the Georgetown Legion Hall, June 18, at 2 p.m. president George would like a full turnout as it provides a chance for all members to voice their opinion and form the policy of the Central Ontario Bowlers' Association for the forthcoming season — house roll for the O'Keefe bowlers of the month goes at

Old Timers

May 9: Hot Shots are playoff champions of the Old Timers' league. In the final three-game roll, they trundled 2020, to back up their last week's score of 2026, for a total of 4046, which was well ahead of Rockets' 3702, Fleas' 3560 and Meteors' 3241. Hot Shots' 768 game in the fifth effectively killed off the opposition and their 626 in the sixth and final game put the championship on ice. So, it's hail the champs and better luck next season to the losers. Top trio in Hot Shots' win were Shirley Hunter 495 (185), Mary Daley 402 (142) and Joan Gaines 387 (161). Rockets' tops were Marie Allen 531 (196), Helen Bitorf 452 (159) and Molly McHugh 310 (129). Scratching out the top tricounts for Fleas

Underground wiring for library lights

Hydro workmen are this week installing underground wiring and the new lighting fixtures at the centennial library. The lights are hydro's contribution to the town's centennial project.

The new lights are expected to be ready for the official opening in June. Installing underground wiring involved laying wire under the school creek.

Sodding will also be finished this week.

HOT SHOTS took the Old Timers' league five pin championship at Acton Bowling Lanes last week, rising from a third place finish at the end of the schedule to take all the marbles. your wife was just voted
"most beautiful neighbor."
she hasn't an excess wrinkle...
or a limp hair problem...
and she threw away
all her dry skin creams.

want to know why?

Mainly because your modern gas heating system automatically balances the heat and humidity.

When air is heated, humidity falls. The air becomes thirsty, and draws moisture from everything in the room—including you. That's why in winter most homes have a dry air problem. When moisture evaporates from your skin it takes heat away. You feel cold, you turn up the thermostat and pay a bigger heating bill. And you still don't solve your dry air problem.

A modern gas heating system can put the proper amount of moisture back into the air automatically, so you get constant, even heat, filtered air, and balanced heat and humidity. True comfort.

So go ahead. Live it up with all the beauty awards you can gather. See your heating contractor, department store, or gas company.
