Five events Saturday keep staff hopping at community centre

Acton community centre and its environs were a hive of activity Saturday with five events staged in the arena and outside from early morning to late that night.

Big attraction was the Y's Men's auction sale which attracted an estimated 500 people. While it was going on movies were being shown to 250 who, taxed facilities in the upstairs auditorium.

Minor lacrosse registration was held in the morning and 150 went roller skating to the latest pop music in the evening, after the floor was swept and cleared.

Recreation director Howard Pearce and his staff mopped their brows and emitted a collective "whew" when it was all done.

Outside, while the activity was fast and furious in the arena, a poultry show was being held by the Fair Board. It, too, attracted many poultry fanciers.

If you're looking for a place to start on home improvements, consider these facts about electric wiring.

To most people, home improvements mean a panelled recreation room or a shiny new set of kitchen cupboards. But there's a way to improve the improvements: modernize your home wiring first.

Up-to-date wiring lets you make the most of the new room you're building, or the old one you're re-styling. It lets you place your lighting wherever you like, have as many electrical outlets as you choose, and use as many appliances as you need without popping fuses.

In fact, you'll notice pleasant changes all through your home. Modern wiring can improve the efficiency of your lighting and the performance of your appliances. It puts such comforts as electric heating and air conditioning well within your reach. It can also make a big difference to the safety and re-sale value of your home. Before you reach for your toolbox, reach for your telephone. Call a qualified electrical contractor, or your Hydro.

Up-to-date wiring costs less than you may think. Yet it could be your most important home improvement of all.
