MILTON HIGH SCHOOL

Monday, 26th June
8 P.M.

WE WERE HAVING a heat wave and no avenues were left unopened by teenagers to escape the humidity and strong rays of the sun. One of the favorite cooling off spots was the Quarries, where the blue-green water issued a cool invitation to dive in and enjoy yourself. Situated on the sixth line of Esquesing, the rock-encircled quarry was once the scene of much manual labor. Sparkling spring waters have filled the excavation and made it a huge swimming pool which exerts a strong pull on the teen-age crowd.
