## Hoodless home, Niagara Falls Dublin bus trip destinations

Thursday, June 29, was the date set for the much anticipated annual bus trip of Dublin Women's Institute, and the members together with a representation from their sister organization, Bannockburn W. I., and friends from Acton and Nassagaweya, complemented a bus load.

Their first stop on this outing was at the birthplace of Adelaide Hunter Hoodless, the founder of Women's Institutes, which now branch all over the world. It is believed she lived in this home near St. George from 1858 until her marriage in 1881. At that time she moved to Stoney Creek, where she organized the World's first Women's Institute.

The Homestead as the old home is now known was bought by the Federated Women's Institutes of Canada in 1959. It has been restored and furnished with furniture suitable to the period when the former Adelaide Hunter was resident.

It was a revelation for the ladies to see the beautiful furniture of that time. Many items in common use then, and long forgotten, were brought to mind. A display of quilts and quilt patterns was also an interesting feature. A dainty lunch of cake and cheese was served with a cup of coffee supplied by the hostesses, Mrs. Lockman.

Since the purchase of The Homestead in 1960 by the F.W.I.C., 15,650 visitors have registered. Names noted on the registry were from Winnipeg, Man. and other far distant points. The lawns and flower beds surrounding the old home have been beautifully cared for, as well as the fine old trees providing shade for the picnic tables. A half mile away at the junction of Highways 5 and 24, a cairn has been erected in memory of this famous woman.

Travelling southeast to the Niagara Peninsula and Ni-

agara Falls, lawns and flowers showed to their best advantage. A view of the Falls was enjoyed by some of the party from the revolving dining-room in the Skylon Tower, five hundred and twenty-five feet from the ground.

Visits to the Wax Museum and to Canada in the afternoon were enjoyed. In this Centennial year, this wonderful land of models of famous landmarks of Canada in Canada was thoroughly enjoyed. It is a tract of eleven acres of park land with 10,000 evergreens, and 40,000 annuals planted there. There are rivers, lakes, canals, bridges, docks, boats, trains and many other things, all in miniature. Almost one hundred buildings have been built to a one twenty-fourth inch scale, and it is quite interesting to see facsimiles operating (in miniature), and many other buildings of renown throughout Canada. The guided tour over paved walks is one mile long.

A drive later on the Niagara Parkway was also very much enjoyed with all its beautiful well-kept lawns and flowers. At Niagara-on-the-Lake a visit was made at the St. Andrews Presbyterian Church, which this year is celebrating its 176th Anniversary. Its Colonial architecture is well-known, and many old features remain, such as three types of pews, box pews, slip pews

and table pews. The views around the Falls, while old, are ever new to the viewers, and always enjoyed. The evening was spent in shopping and watching the illumination of the Falls. The party returned home about midnight after a very enjoyable outing, which had been planned by Mrs. M. Nellis, Mrs. M. McCullough and Mrs. F. Norton, assisted by Mrs. Duncan Moffat.
