Noise in cities can cause real damage to hearing and can also affect blood pressure, the heart, and eventually disturb every bodily function, warns Dr. Samuel Rosen of Columbia University's College of Physicians and Surgeons. The ear's attempt to bar excess sound causes blood vessels to contract with equal intensity during sleep as well as during wakefulness says Dr. Rosen.

**if your  
furnace  
doesn't do  
its job,  
fire it**

Now is a perfect time to convert to modern Natural Gas. It doesn't take a large cash outlay. There's no down payment — and the cost of the furnace, plus the supply of gas, can be paid for with equal payments.

You can enjoy the benefits of a natural gas forced air heating system. You'll have balanced heat and humidity, a constant supply of fresh filtered air, even heat throughout the whole house.

... and of course, free service (though you'll likely never need it).

There's nothing like Natural Gas for complete comfort and efficiency. Install a new gas furnace system now and find out for yourself this winter! See United Gas or your heating contractor. Ask about the "4 Steps to Total Indoor Comfort".
