### Agent, operator still there

# C.N.R. station partially closed

forlorn, deserted looking place this week.

Orders came through Monday that neither the agent or the operator could sell tickets, money orders or handle freight as the first stage of the new master agency plan is being implemented. Consequently commerce is wiped out at Acton station.

Only a few things were removed from the station Monday but

pass-or-fail-in-June concept. While accelerating of students

The new report cards will not mention grades. Teachers will be primary, junior, intermediate or subject teachers, not "grade" teachers.

students transferring here have been on this progressive system. The changes won't come all at once, he said. "We want it to be

Parents' problems with the new system can be discusseed with the individual teacher.

Acton's C.N.R. station is a it's expected auditors will be in six going out. Five men were sometime this week to take out the books. Then agent Charlie Perry will have nothing to do but twiddle his thumbs as the master agency takes over complete

control. Operator Jean Marcoux will stay until November 15. His only duties are to report trains passing through. Next week after 25 years with the C.N.R. he'll be out of a job unless he decides to take a "bottom" position with a considerable cut in wages.

Jean Marcoux is confused. He said it has always been the duty of the operator to keep "time blocks" on trains, which is information about their position and time. Severe discipline could result if this wasn't carried out

It's a mystery to him how It can be done now. Both he and agent C. Perry are waiting for instructions. Meanwhile they sit and wait.

\*When I came to Acton in 1950 there were 10 to 15 freight cars every day coming to Acton and

employed and they were so busy there was no spare time." said Mr. Marcoux.

Now there's one car every. three days. That's the extent of the business in spite of large industrial growth.

If the board of transport commissioners decides the Acton station should remain open when the case is reviewed they'll operate with one man. The operator is expendable.

The agent now has no duties but when the case comes up before the board one of the first more than \$147,000 in a year. questions liable to be asked is what he is doing. This bothers C.N.R. agent Perry. He'd like to have some official function but the railway is building up a case to close the Acton station after over 100 years.

Brussels, a small village with a population of 844, recently raised such a fuss over the closing of their station that it was reopened. The Brussels station has less than half the Acton re-

The Progressive Conservative member for Huron, Mr. McKinley, announced the agent would be returned to Brussels, suggesting he had worked to keep it open. Brussels station operated for some months under a master

the Stratford office. A member of the board of railway commissioners attended a protest meeting in Brussels during the summer. At that time it was shown Brussels had increasing revenue from cattle shipments and revenue came to

Despite a severe fall-off due to the railway's loss of business Acton revenue is much more than that figure. While The Free Press report-

er was at the station here Tuesday one man dropped in to be reassured the morning train still stopped.

Although no firm decision will be taken about the closing of the station until the case is reviewed by the Board of Transport Commissioners, people here

generally feel the C.N.R. intends to close it. Some industries in particular are quite concerned fearing freight service will follow the same path as express when it was moved to a central depot in Guelph.

agency plan conducted through Boosters of the town are particularly upset because of the effect closing of the station could have on new industry interested in locating he re.

> The railway, however, says their studies indicate the job can be done better operating out of Guelph. An on-hand representative from Acton has been appointed and a travelling customor service representative appointed to maintain personal con-

> Detractors of the C.N.R. scheme are dubious how hiring two new men and needing trucks to transport freight back and forth from Gueloh is more economical.

Meanwhile, the future of Acton industry could hang in the bal-

## Rules, rate set for renting h. s. gym board queries evaluation of grade 13

The question of how grade 13 students will be evaluated since there are to be no more province-wide examinations, was asked of principal Ted Hansen and vice-principal Joe Bray at the high school board meeting Mon-

day evening. University entrance requirements will still be the same seven credits and 60 per cent, but principal Hansen explained more weight will be put on aptitude tests now, which judge ability, not just facts. These will return some of the lost uniform-

ity, be felt. Mr. Hansen and Mr. Bray stated their confidence in the teach-

### M.Z.B. addition comes to council

An addition for the M.Z. Bennett public school will be on the agenda at the next council meeting, Nov. 14.

On Monday, school board members met with No. 1 committee of council and made a detailed proposal, with sketches and pictures prepared by principal E1mer Smith.

No. 1 committee's recommendation will be learned at council meeting when the matter will be up for discussion.

The board's request was previously stalled by No. 1 committee before it reached council.

going to vary considerably, "but there were wide variations in the old system, too, Those who lost in the old system will lose in the present system.

Staff and board members agreed that evaluating grade 13 would be one of the subjects of discussion at the next meeting of the board-staff joint committee on quality education Nov. 15. The teachers on the committee had also requested discussion on guidance and counselling.

A letter was read from Project Action requesting the use of the gym for dances, possibly every three weeks. The request was granted, after board members undertook a lengthy review of past school dances which had been cancelled when students did not comply with regulations.

Members agreed on a set of rules: no smoking, assume full responsibility for damage; no

alcoholic beverages; the premises to be left in good condition free of pop containers etc., and vacated by 11:30 a.m. on week mights and 11:45 p.m. on Seturdays. The rented area is limited to the gym and adjacent wash-

Project Action pointed out is their letter that they would provide their own aspervising, hir-Log security guards from Conmopolitan Security Services, in Brampton, as they have in the past, ... The board requires the service to supply a report to them after each dance.

The Project Action letter of application reviewed their projects and donations and other dances; their previous use of the arena before the hockey season and their present coffee house arrangements in the Y.M.C.A. Their proceeds would be for
