"The money represents a mill and a half." replied Mr. Hinton. "We've had instructions from the auditor that our surplus is too low. This will assist it," answered Mr. Masales.

The reeve couldn't be swayed. "You're taking from the taxpayer with one hand, borrowing from the bank with the other," he insisted. "If you call on the endement fund today for a major. replacement, what have you got? \$3,0001. What if, you get a call
