Problems with high school board budget

Acton High School Board accepted the finalization of salary increases for teachers, the principal and vice-principal, for the coming year, at the regular meeting last Thursday night.

The slight budget problem which results is further complicated by the change in payments of staff from a twelvemonth basis to a ten month basis. This year's school board will go into the fall with a small deficit. Moved by Watson and seconded by Anderson, a letter is to be ment to the auditor asking him to submit a revised statement including the amount carried over owing the teachers at Dec. 31, 1968, in an attempt to have the school grant adjusted accordingly.

The treasurer's report was accepted and everyone was reported "in line" except the library which is \$30 over the budget. This was explained by the fact that most of the orders were placed before this year's 10 per cent cut was announced. as requested by the board at the beginning of the year.

The board agreed to lend the chairs from the auditorium to the Fall Fair committee for Sept. 20, 21 and 22.

The resignations of four of the staff were accepted. All have been replaced for the coming school year. H. L. Goodman of Toronto has been hired to teach Mathematics and Science next year.

Brian D. Skerrett was authorized to attend an Information Conference in Ottawa this summer, expenses paid. The conference is expected to provide the guidance department with valuable material for next fall. Mr. Skerrett was hired for the vocational department, starting in September.
