HEADLINE NEWS

On the social scene it's the Kam of the Blue Springs Nursery league sporting a blue chip diamond on that all important left hand finger. In passing we note that Jim "El Toro" Bulough has that cumbersome case removed from his bowling arm and to give his arm a workout "El Toro" rolled a three game stint last Saturday eve and after rolling his first game easy, to lumber up the arm, went to the wrist action for his second game and turned in a 399 effort. Not bad after that prolonged layoff, just a reminder to all the parents of our Y.B.C. bowlers. The Bantams banquet is on May the 24 and the Juniors and Seniors banquet is on May the 31. If any one of the young bowlers can not attend, Supervisor Ivy Martin would appreciate a phone call to that effect that winds it up once again my friends, so adios and goodnight Canterbury Village.

Kite flying warning

Ontario Hydro has warned parents and children against flying kites and model airplanes near power lines. The warning comes in the wake of incidents across Ontario in which young people have been injured when kites have become entangled in electrical wires. While kite flying provides endless hours of fun for the young and the not-so-young, some caution is needed. A sudden gust of wind can carry a kite into a power line, which carries many times the voltages found at home. Because electricity will take the shortest route to the ground, metal struts, metallic wire, wire-reinforced string and even duct string will act as a conductor. The best way to enjoy kites and model airplanes is to fly them in open spaces away from power lines.
