Would you pay \$1.75 a month to never have to worry about running out of hot water?

That's all it costs you to rent a standard size Natural Gas Water Heater. Or, for \$1.95 a month, you can rent an even larger Natural Gas Water Heater.

And if renting is not your style, buying a Natural Gas Water Heater is as simple as making modest payments on your regular gas bill. Whichever way you choose, you're not going to have to worry about running out of hot water.

A Natural Gas Water Heater is easy to install and keeps your home in continuous, abundant supply of hot water because of its tremendously fast recovery.

For the low price you pay, it's difficult to think of an energy source that can heat water faster than natural gas.

If you want the assurance of lots and lots of hot water for a little, little amount of money, run out to your plumbing dealer, department store or United Gas right now.

And never run out of hot water.
