

Rockwood's history

from the Richard Harris collection of photographs

BREAD CART made its rounds in Rockwood before Saunders Bakery was established. The driver is John Henderson, Mrs. Harvey Thatcher's father.

OLD VALLEY ROAD in Rockwood used to have trim homes along its side, but these have all been torn down. Boys in bloomers and girls in long skirts play at the side of the river.

CHURCHILL

Three esteemed families moving away from district

By Mrs. Fred MacArthur
The Churchill news by Mrs. F. MacArthur joins the friends of Churchill in extending congratulations to the Free Press publisher David Dills and staff and to Jim Dills and staff of the Canadian Champion of Milton on achieving such high standards.

Congratulations to Miss Erika Stokov who successfully passed her bronze swimming test last Saturday at Fenelon Falls.

Miss Joyce Denny and her cousin, Miss Patti Leslie have arrived from Halifax where Joyce has been holidaying. Patti will spend the next three weeks with the Denny's.

Mr. and Mrs. Albert Smith and Mr. and Mrs. Wilfred Waldie, Duncan and Lillian, visited in Port Elgin recently.

Mr. and Mrs. Harry Angus, Jay and Gordie, also Mr. and Mrs. Jack Dunn and three children of Wyoming, Michigan, spent the weekend at the home of Mrs. Angus' parents, Mr. and Mrs. Alfred Winder. Greg Milson of Guelph and Brian Rae returned home with them for a week's vacation. Heather and Mark Milson of Guelph and Wendy Henry of Rockwood spent the past week with their grandparents, Mr. and Mrs. Alfred Winter.

Mr. Leonard Thompson and parents Mr. and Mrs. Joshua Thompson's auction sale last Saturday was very successful. A large crowd gathered, it being a beautiful day. The Churchill C.C.W. held a booth on the grounds and it was well patronized—a real success.

We are sorry to report we are losing three of our esteemed families from Churchill area this week. Mr. and Mrs. Joshua Thompson are going to make their home with their son Charlie on No. 7 highway. Mr. and Mrs. Andy Morden and family are moving to Arthur

where they purchased a farm. They will be missed in church and Sunday School as well as the neighborhood.

Mr. and Mrs. John Near, Glen and Earl will also be greatly missed, even though they are just moving to their home on the corner of Mill and Frederick St. in Acton. They have sold the farm where John has always lived. It was a pioneer home and in the family for years, so we hate to see them all moving away. We wish them the very best and will be looking forward to many visits whenever they can return.

Miss Karen Rogers of Hillsburg spent a week with her aunt and uncle, Mr. and Mrs. Ron Saunders, Norman and Stephen. Mr. and Mrs. Bob Kerr attended the McCarl and Palmer wedding last Saturday, August 9, in St. Andrews Presbyterian church in Southampton and the reception afterward in the Burgoyne Presbyterian church.

On August 10 Mr. and Mrs. Bob Kerr attended a family reunion at Mr. and Mrs. Ross Knox's home in Brougham, and also visited with Pat's grandparents while there.

Mr. and Mrs. Bud Anderson, Jim and Earl, have spent three weeks holidaying, mostly at their cottage at Belwood Lake. Mr. and Mrs. Archie Kerr, also Mr. and Mrs. Don Anderson, Donald and David, enjoyed a lovely trip the past week to Manitoulin Island by way of North Bay holidaying on the way.

Churchill friends wish to convey their deepest sympathy to Mr. David Russell, Mrs. Edith McEachern and Mr. and Mrs. Stewart Russell, also to her only brother Mr. Robert McEnery in the passing of a loving wife and mother Mrs. David Russell who passed away on Monday morning in the Guelph General Hospital.

What goes on in LaSalle Towers during the winter?

Natural gas heat, for starters.

Clean, evenly circulated, "fresh-air" natural gas heat keeps every resident of Burlington's fashionable LaSalle Towers in wall-to-wall comfort.

Eighteen roof-top boilers do the job.

And the job is considerable. There are 220 luxury suites in the 19-story apartment building. Plus three large penthouses.

Why did the owners of LaSalle Towers choose natural gas?

Dependability was their first reason. A flame can't wear out. As well, natural gas is both easy and economical to maintain.

And the versatility of natural gas entered into LaSalle Towers' management's considerations, too.

Natural gas is the energy source which produces the hot water that allows tenants to enjoy the apartment swimming pool on the coldest winter day.

Natural gas heats the sauna and keeps everyone in the building in clean clothes by powering the hot water supply for 16 laundry rooms.

Why not give some thought to natural gas? Whether you have to house more people than LaSalle Towers Or less.

There's no more modern, more economical way to heat a factory,

an office, a store, a school or a home.

Your heating contractor or gas company representative has the whole story. See him.

He knows what goes on.
