## Guest minister at anniversary Pro-Teens hold second meeting

By Mrs. A. Benton  
The 108th anniversary services of Limehouse Presbyterian Church were held with guest minister Rev. Wayne Moddock of Hillsburg preaching at both services. Rev. F. N. Young assisted in the evening. Mrs. Wm. Kern and her sister Miss Mary Lou Brown sang duets and the choir had anthems at each service. Mrs. Roughly was at the organ. Quite a number of

visitors attended to appreciate two worthwhile gatherings. The W. A. served lunch at the social in the evening.

Communion services will be held next Sunday, Oct. 5 when church will commence at 2.30 p.m. The Sunday School will gather at 1.30 p.m. for Rally Day.

Mr. and Mrs. Jas. Marshall of Ash and Mr. and Mrs. Wilfrid Greenleaf of Campbellville were

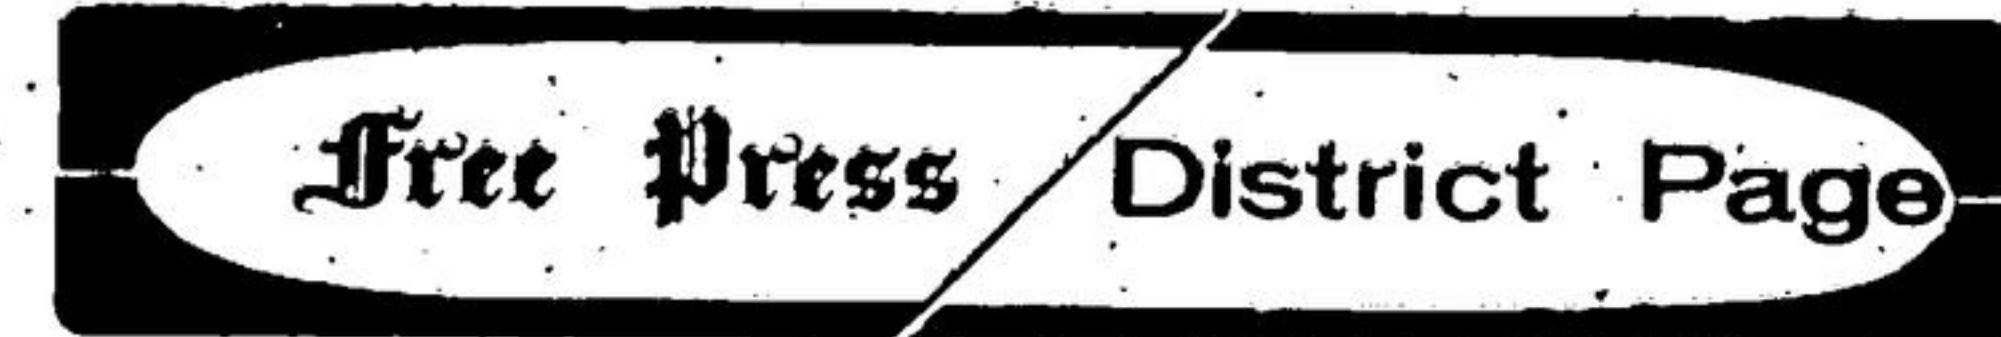

Sunday visitors with the A. W. Bentons.

Mrs. Fred McCartney of Georgetown visited her cousin, Mrs. Wm Mitchell on Sunday.

The Pro Teens 4-11 girls held their second meeting for their project "Meat in the Menu" at the home of their leader, Mrs. Neil Anderson. Illness kept attendance low but the previous work was reviewed and leaflets from Canada Packers & Swifts were distributed. It is hoped all

### Slow down

When you're driving, look out for pedestrians who have their minds on shopping; children going home from school or playing in the streets; senior citizens who may not be as alert as you are; four-legged pedestrians like dogs in town, or cattle, or deer in the country. And when you see them, slow down. Tap your horn to warn them and be prepared to stop.

## Lots of luck-but all bad

R.R. 3, Acton.

Dear Sir:  
Last week just wasn't the week for the Shaw family of R. R. 3, Acton. Early in the week they had their truck hit. Of course, it was not reported.

On Friday morning their cat was killed on Highway 25. The young lad that hit the cat had the decency to stop, go in and tell the Shaws which was appreciated very much.

Later the same day their dog was hit and killed a little further down the road than the cat. The dog never went on the road but he always played with the cat

and the Shaws think he might have gone to look for the cat. Unfortunately the driver that hit the dog did not have the decency to stop and report it.

This seems to happen all too often. Some people go out of their way to kill an animal.

To finish this off—the cars go much too fast. They do well to get stopped for the school bus when it stops to let children off and pick them up. There have been a few occasions where the car has not been able to stop. Lucky, though, no children were hit. These drivers must all know the times the buses are on the road.

Yours truly,  
Vivian Shaw.

## Combined service, death in report

Mrs. D. G. Robertson  
Mr. Dan McLean of Guelph was a visitor in the village last week.

Mr. and Mrs. Swain of Niagara Falls spent the weekend with the latter's sister and brother-in-law, Mr. and Mrs. E. Fisher.

Mr. and Mrs. H. R. Howard spent a day last week with Dr. and Mrs. Billings at Cayuga.

Rev. Donald Whitehead, the new minister at Everton and Guelph Christian Churches, called on members of the congregation in the village on Saturday afternoon.

Mr. and Mrs. Walter Craik spent the weekend with relatives in London.

Mr. and Mrs. P. Hayden and baby of Guelph visited on Sunday with Mrs. Hayden's parents Mr. and Mrs. Wm. Wragg.

A combined communion service of Burns Church, Erin and the local Presbyterian Church was held Sunday morning at the local church. Rev. D. Herbison was in charge and preached an appropriate sermon.

A former older resident of the community in the person of Mrs. Albert Young, passed away on Wednesday evening following a lengthy illness in her 89th year. She and her late husband farmed for years on the Townline, on the farm now owned by Stan Fuller.

## Hunters causing problems for rural Nassagaweya

An agitated Councillor James Watson urged Nassagaweya Council to "take a firm stand on procedures to be used when hunting season gets underway."

He said he has nothing against hunting but he has found shotgun shells in his backyard.

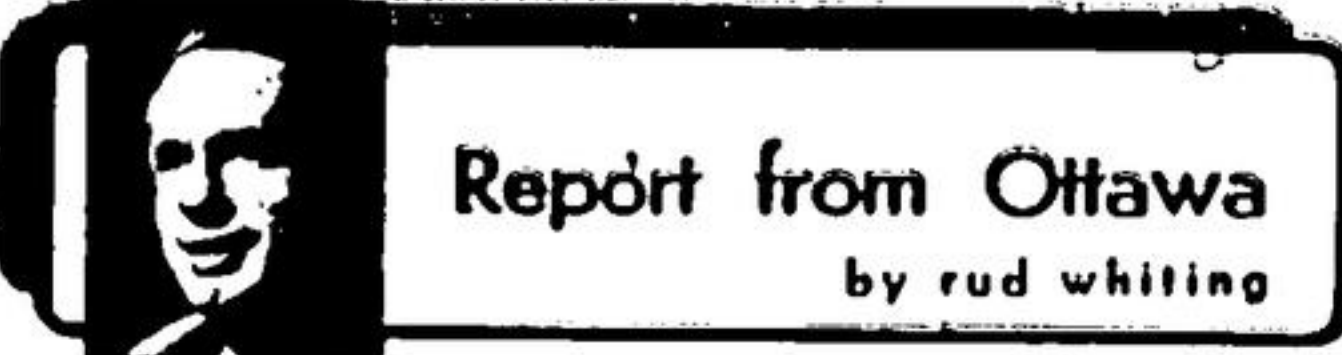

with no regard for private property are a menace. He thought it would be a good idea if hunters sought permission from a farmer or landowner before they hunted on his property.

Councillor Art Gibson told said hunters who trespass

move on when he came across hunters. The problem was, he was on his own property and they were trespassing.

Deputy-Reeve Gordon Agnew said hunting should be a thing of the past in the township.

Council held off any action on passing a hunting-by-law until further information could be obtained from other sources.

### Report from Ottawa

by rud whiting

Before the second session of Parliament under the present Government opens on Oct. 22, is a good time to reflect on what has taken place since taking office just a little more than a year ago.

The questions I ask are what has it meant to me and the government, to the people of Halton and the country.

Certainly we can be grateful that Canada is such a great and peaceful place to live. We are fortunate not to have the problems and outbreaks of violence which are being suffered in Vietnam, Israel, Nigeria and Czechoslovakia.

During the last year we have had our problems. We had to deal with inflation, with wheat sales, with the French-English relations. The issues which made the most headlines were rule changes in the House of Commons, the new Criminal Code and Language Bill. There were a total of 47 bills passed last session, almost a record total.

The rule changes will allow us to get more business done in the house and prevent the usual back-log of government business being carried over from one session to the next with irritating regularity. From now on opposition parties (as well as government members) will be aware of the time limit on each debate and will put their best speakers and best points of view forward.

Changes in the Criminal Code enacted last session, I think, will help the individual Canadian because of the improvements regarding passport, cruelty to animals, firearms control and harassing telephone calls. But many of our laws are still as old as the country and must be brought up to date. A select group of individuals will be asked during the next session to study the Criminal Code from start to finish and to bring it completely up to date. These are necessary changes and reflect the government's efforts to make Canada's laws equal to our just society.

One of my responsibilities this year has been to sit on the regional development committee. I have visited some of the poorer regions of the country and can now understand the statement by Prime Minister Trudeau when he said, "I feel a just society would have to solve the problem of regional economic disparities, for instance, which means that people who live in regions which are undeveloped have claim against the whole of the society to be able to attain in some way average standards of welfare and growth, in order for the society to be just".

One fact which should never escape us is that we are not only citizens of Canada, but our whole living is influenced by what happens in the outside world. Interest rate increases in Canada, for example, are a reflection of increased rates in the United States, and Europe. Inflation at home is a reflection of inflation the world over. That is why we must continue to exercise our influence in the world economy.

I believe Mr. Trudeau summed it up very well earlier this year when he said, "Our place in the world, our contributions to a peaceful and just world are, I think, best illustrated by the decision we made on NATO, by our reassessment of our foreign policy, by our decision to move to recognize Red China, our new policies concerning South America and Europe."

**YOU need this** when deep-fat frying

French-fried potatoes, chicken, and many other foods are delicious when prepared in your deep-fat fryer. But, for safety's sake, keep the frying temperature at the proper level by using and watching a cooking thermometer.

The flash point, or temperature at which the vapours from the boiling fat can be ignited by a match flame or spark, is less than 100 degrees above the maximum frying temperature of 400 degrees. And the ignition temperature, at which the hot fat itself can burst into flame, is only about 200 degrees higher than the flash point.

Therefore, it is very important to keep the frying temperature to a controlled, safe level.

Never leave your fryer unattended while warming fat to frying temperature. Because heat from the stove element under the fryer cannot escape rapidly, the temperature of the fat rises quickly. It can increase past the frying level to flash point and ignition stages in the time you might take to answer the door or telephone. If you are interrupted by a call during frying, be sure to turn down the element under your fryer. Don't rely on fryer thermostats - although they help reduce the danger of overheating, they don't always work.

Would you like to enjoy safer deep-fat frying in your home? CIAG has a limited supply of reliable, deep-fat frying thermometers available at cost. To obtain one, please complete the attached coupon and send it with your cheque or money order for \$1 (includes 5% sales tax) to CIAG INSURANCE.
