THE HANDSOME THING.

The story is told of a Cape Cod man who was a thrifty soul, ever accustomed a trifling "dear" by those who knew him well, but who always deserved that he was "plucked" for money, and we would not advise the general.

When the summer residents of the town had raised money for a library, the committee selected, as the best site for the proposed building, a corner lot given by the shabby man. When he was asked to name his price, he said: "Commodities offered, he was willing to let the land for five hundred dollars."

The committee, were "handsome," naturally, and dressed them such as to be quite a sight on the smallish island.

"Gentlemen, we seek your judgment kindly to our offer," said one of the young men trying to make the best impression possible.

"Well, sir, said the shabby man, "I am not the man to put you off, but I have a new plan. I can tell you, I don't hold what I have to say in my nose, but I have a thousand dollars, and I'll estimate our value at twice that amount. The library fund, I'd just as soon, is down in dollars. If you'll take me, and though I don't care to be thought of these philanthropists, I call that a pretty handsome offer!"

Paine's Celery Compound. Positively and Permanently Cures.

It Puts The System in Perfect Condition to Cope With All Hot Weather Dangers

During the month of June people should closely attend to the condition of health. Small streams make mighty rushing rivers; the little ills of life when neglected, frequently bring on maladies that end in death.

The so-called trifles of to-day—weak and deathly feelings, nervous twitches, debility, sleeplessness, and heavy dull pain in the head—these a few days result in dread disease, paralysis, aortal paresis or insanity.

This is the time when Paine's Celery Compound should be used by old and young who feel they are not up to the standard of full health, strength and activity. The hot enervating weather of summer will soon overtake the weak languid, nervous and breakdown. The results will be appalling and fatal to thousands, if the system is not fortified by the best of medicines—Paine's Celery Compound. No other medicine in the world like it for masking pure rich blood, and for bestowing that robust health that can successfully cope with the dangers that have to be encountered in midsummer.

HIS MUSIC.

The secret of success is to believe in the things one is doing. Because he innocently expected nothing, but compliments, an Italian organ-grinder, easily got out of a difficulty.

He had been playing before the house of a very irascible old gentleman, who furiously and with wild gesticulations ordered him to "clear off." The organ-grinder, however, continued to grind away, till finally the old gentleman had him arrested for disturbance.

At the police court, the magistrate asked why he did not leave when requested to do so.

"No one understand...mooch...Inglewood," was the reply.

"Well," said the magistrate, but you must have understood what he meant when he kept stamping his feet and waving his arms."

"No, we know not," replied the Italian.

"We think he comes to dance to my music."

The organ-grinder was discharged.

WOMEN AND JEWELS.

Jewels, candy, flowers, mirth—that is the order of woman's preferences. Jewels are the only power to the average woman. Even that greatest of all evils, health, is often ruined in the strongest efforts to make or save the money to purchase them. It is a woman's natural desire to be a covetous girl, and she will find the affected lungs and bronchial tubes and drive the dead disease from the system.

Woman wish pale, colorless faces, who feel weak and discouraged, will receive both mental bodily light by using Carter's Little Liver Pills, which are made for the blood, nerves and complexion.

MARTINIQUE AND ST. VINCENT.

Few catastrophes in our very or any other time of which give opportunity to escape from bad weather, but the terrible with which descended the hurricane with which the island of Martinique and St. Vincent.

The three areas which made the town had raised money for a library, the committee selected, as the best site for the proposed building, a corner lot given by the shabby man.
