PROVERBS

"When the butter won't come, put a penny in the churn." is an old-time proverb. It often seems to work though no one has ever told why.
When mothers are worried because the children do not gain strength and flesh we say give them—Scott's Emulsion.
It is like the penny in the milk because it works and because there is something astonishing about it.
Scott's Emulsion is a milk of pure cod liver oil, especially prepared for stomachs.
Children take it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.
For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, I. e., a sample free.
Be sure that the picture in the form of a label is on the Emulsion you buy.
