There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

None were seriously hurt but a number of athletes were required to patch up their injuries.

The buggy was also slightly damaged.

***Rules for Sobriety.***

A correspondent of the New York Sun writes: Why do so many people worry about the reformation of drunkards and the means therefor? I adopted years ago this method of reclamation:—Never to drink by myself. Never to invite another to drink. Never to refuse an invitation to drink. By careful observance of these rules it will be found that one will be incapable of becoming a drunkard.

***Dog Bit Owner's Face.***

Solomon Cordingly, a farmer of the ninth concession of Trafalgar township, Halton county, is at present undergoing the Pasteur treatment for rabies, which is administered at the general hospital, Toronto, as the result of having been bitten on the nose by his own dog. The animal was at once killed and its head sent to the provincial laboratory, where an examination showed that it was affected with rabies. Just how the animal came to attack its owner is not known, but the case is regarded as a serious one, as all bites on the face are so considered. However, the most prompt steps were taken, and the authorities do not fear a fatal termination. Mr. Cordingly's dog had, however, been running about for some time before it attacked its owner, and dog-owners of Trafalgar township are very much afraid of a general outbreak of the dreaded disease. The township council has, as a precaution, enacted a by-law compelling all dogs to be chained up. Muzzles or no muzzles, every dog found at large will be killed at once. The city council of Hamilton enacted the same by-law after the outbreak there last spring.
