

CARTERS' LITTLE LIVER PILLS
CURE
SICK
HEAD
ACHE

Not until boarding houses cease to exist will all their romances be written. Highly romantic, some of these stories are of the young woman who got so tired of being called "poor thing" because she received no invitation and had to eat all her meals at the boarding house table that she took to eating alone once in a while at a cheap restaurant, and then, intensely about her friends, who had invited about her.

W. L. Hamilton
McKinlay Block, Georgetown.

It isn't so difficult to strengthen a weak stomach if one goes at it correctly. And this is true of the Heart and Kidneys. The old-fashioned way of dosing the stomach or stimulating the heart or kidneys is surely wrong. Dr. Sloop's Pink Pills pointed out this error. "Do to the weak or ailing nerves of these organs," said Dr. Sloop's Pink Pills, "is to take the medicine which is the best remedy for Diabetes. Sold by Druggists and every part of the world. Be sure and ask for 'Mrs. Winslow's Soothing Syrup,' and take no other kind. 'Twenty-five cents a bottle.'

A ROMANCE IN SIGHT.

Started by the Unmaking of the Pair of Friends.
Not until boarding houses cease to exist will all their romances be written. Highly romantic, some of these stories are of the young woman who got so tired of being called "poor thing" because she received no invitation and had to eat all her meals at the boarding house table that she took to eating alone once in a while at a cheap restaurant, and then, intensely about her friends, who had invited about her.

SHE WAS AGGRESSIVE.
Lucky For the Little Man He Was Not Her Husband.
The lady in the office corner of the tramcar possessed a freckled air and a discolored eye.
"Penny thing any one can't take a penny ride without everybody glancing at her," she remarked, fixing a small gentleman's waiting gray whiskers and a somewhat rusty top hat with her normal optic.
The small gentleman suddenly became interested in a soap advertisement.

Two Minute Talks About PANDORA RANGE for Coal or Wood
Of course the Pandora Range is a few dollars more than an ordinary range. But it will save you for itself in the fuel it will save for you.
The Pandora Plus System and Wide Fire Box, designed by our brainy stove experts, save about half a ton of coal per year, because they supply more air than the Plus systems and fire boxes of ordinary ranges, causing better combustion of fuel.
The Steel Oven saves some more fuel, because it heats up more rapidly than a cast iron oven. The heavy Fire Clay Coaling on the main bottom of range prevents any heat, wasting towards the floor. It drives the heat back into the oven, and thus saves still more fuel.
But the big economizing feature is this: The draft for cooking on top of the range is also the draft for baking in the oven. The heat does double duty and your fuel bill is largely reduced.
Get the Pandora—the range that pays for itself. No other range is high-class enough for you.

ATTACKED BY SHARKS.
A Fisherman's Plucky Encounter With Two Big Men Eaters.
John T. Clark, a well known swimmer, in 1902 had a narrow escape from serving as a meal for two hungry sharks while giving an exhibition at Peconic, N.Y. He had agreed to be served up in a big sack, heavily weighted with sand, and be thrown into the bay near the navy yard, from which he was to escape by cutting his way out with a knife and swimming ashore.
At an appointed time a dory, with six feet of sand, was lowered into the bay, and after being tied up in the sack he was thrown overboard. He had hardly got down when something bumped against the sack, and almost instantly the idea flashed through his mind that it was a shark. Before he could do anything there was a bump over the other side of the bag. In a moment or two he had cut his way out, and was swimming towards the shore. He was a few feet from the shore when he saw a shark. He was about to dive to escape the shark when he saw another shark. He was about to dive to escape the shark when he saw another shark. He was about to dive to escape the shark when he saw another shark.

THE PEANUT.
It Starts Growing in the Open, but Flourishes Under Ground.
Most people of the north suppose that peanuts grow like potatoes, on the roots of the vine. Others with equal confidence state that they hang from the branches like pea pods. Each are right, and both are wrong. The peanut starts in the air and sunlight above ground in the shape of a green grove, the fall of blossoms into the air, or peduncle, elongates and bends downward, pushing itself back into the ground. If for any reason it cannot do this it dies in a few hours. But if it succeeds in burying itself to its own satisfaction, it grows at the base of the peduncle slowly enlarges and forms the familiar pod, which is therefore dug out of the ground.
Scattered over the body of the plant, however, are numerous warts or tubercles, in which, by the aid of a good microscope, can be seen a small, white, minute organism. These bacteria-like bodies, though they get their living from the plant, contribute materially to its supporting by converting nitrogen from the air and holding it in storage, so to speak, supplying it to the plant as needed. These wonderful little organisms often contain, by analysis, a greater supply of this indispensable fertilizer than the surrounding soil.
The native country of the peanut has long been a matter of dispute, but the department of agriculture states that the weight of evidence seems to be in favor of Brazil. Thus the peanut is added to the four other plants of great importance that America has given to the world: cotton, Indian corn, tobacco and the potato.

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills
Minneapolis, Minn.—I was a great sufferer from female troubles which caused a weakness of the system. I read of Lydia E. Pinkham's Vegetable Compound, and I got a box. It did me good. I am now a well woman. I want to see that other women who suffer from these troubles get the benefit of this medicine. I will send you my letter as a testimonial. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.
If you want special advice write to Mrs. E. L. Pinkham, Lowell, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

A LONG WASH DAY.
It Lasted a Week, but Came Only Four Times a Year.
Every one has heard of the German and Dutch method of accumulating soiled clothes and of having a wash day only two or three times a year. In these days of the ever ready laundry it is strange to read of the laborious period which came to our New Englander. He had accumulated a year's worth of soiled clothes and laundry in his cellar. He had accumulated a year's worth of soiled clothes and laundry in his cellar. He had accumulated a year's worth of soiled clothes and laundry in his cellar.
