**The Story of the Chevrolet**  
You may not have heard of the Chevrolet, the car that has taken the public by storm in the United States.  
This is no new venture—no untried car—but a proved success, a car that has been marketed with phenomenal success by a company established for five years in the United States.  
Well, that is the car we now offer in Canada, only this is to be a distinctly Canadian Chevrolet, not just Canadian in name, but made by an all-Canadian company, backed by one million dollars of good Canadian money, every shareholder, without exception, a Canadian, and every feature of its manufacture completed in a Canadian plant, by Canadian workmen. For the design of this wonder among automobiles all credit must go to Louis Chevrolet, the world-famous designer of racing cars.  
Note.—Owing to the great demand for this car, we would suggest placing your order early to ensure delivery. Now on display at Willoughby's show room.
