OLDER BUT STRONGER
 To be healthy at seventy, prepare at forty. It is sound advice, because in the strength of youth we too often forget that neglected health, or careless treatment of slight aches and pains, simply undermines strength and brings chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-purifying properties of Scott's Emulsion which is food, is tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. At any drug store.
