To-Day's Story
The girl at Clancy's Ball
She had one short Romance.
By CHARLES ALBERT WILLIAMS
Copyright by Frank A. Murray Co.

John Harmon of the Morning Bulletin puffed abstractly upon his cigar and gazed around the tumultuous hall. It was the night of Boss Clancy's ball. The dancing floor was crowded with rotating men and women. Girls of the shop and factory swayed and gyrated to the clasp of men, coarsely dressed and unintelligent.

"If anything's going to break here tonight, let it come soon," he remarked, bitterly and unceremoniously. A young girl, her face flushed from the last dance, hurried toward the reporter's table. She was a frail little creature, slender, like a reed and looked back and stared at a frightful sight at a man following her.

"Excuse me," she said half breathlessly, halting before the newspaper man and addressing Harmon. "Help me out of this place. This man has been annoying me—wants me to dance with him. I'm afraid of him."

"Who are you, anyway?" he bawled. "Know who I am? I'm one of Clancy's men. I'm not at all interested in your pedigree," he said. "It seems to me you might let her alone in peace."

THE PILOT-FISH
The pilot-fish is a common fish and has been found in the bay of Georgetown. It is a small, slender fish, with a long, pointed snout and a large, prominent eye. It is known for its habit of swimming in a single file, with the lead fish swimming slightly above and to the right of the others.

A Man's Adventure
In a bunch of promiscuous and injured beauty arranged that his fair client should be so placed that her charms might be well under the observation of the jury. He began a most pathetic appeal by directing their attention to the lady's complexion and to the fact that she was a widow.

What Happened to Me?
"What happened to me?" he asked. "No one seemed to know anything about it," she replied. "You were with a bottle. They couldn't find out who did it. I'm glad, anyway, that you were there. I'd have gone, too, I suppose."

What I Took There
"What I took there?" They both said. "You're looking at her in surprise and for the first time observed closely her appearance. There was no health in her cheeks, and she looked worn and weary."
