

THE GEORGETOWN HERALD

WEDNESDAY EVENING JUNE 13, 1917

ON VIMY RIDGE

Our practice honours by mountain peaks. Whose name is Honour and Glory weep. With its name and reverence they will speak of Vimy Ridge.

ABOUT HEROES

There is one chap that I admire more than all the rest, who comes from places in the north or points out in the west. Not that he has been at the front where shells and bullets hurt, or he has in a spell out there again at the line.

Take Good Care Of The Colts

It's cheaper to visit colts than to buy horses. But it's only if you look after the colts. Keep bottles of Kendall's Spanish Cure handy.

Kendall's Spanish Cure

Is sold by druggists everywhere at 25c a bottle. It is a free copy of the book "The Treatment of Colic" by Dr. H. S. Kendall, M.D., Veterinary, Falls, N.Y.

Court of Revision

TAKE NOTICE that the Court of Revision will be held at the Court House, Georgetown, on the 15th day of June at 10 o'clock a.m., to hear and determine the complaints against the assessment Roll of 1917.

INSURANCE FIRE

Accident MRS. ROE, GEORGETOWN, ONTARIO

Mail Contract

Sealed tenders addressed to the Postmaster General will be received at Ottawa on Friday, the 15th day of June, 1917, for the contract for four years, at three per cent per annum, for the mail service between the following points:

Mail Contract

Sealed tenders addressed to the Postmaster General will be received at Ottawa on Friday, the 15th day of June, 1917, for the contract for four years, at three per cent per annum, for the mail service between the following points:

J. A. TRACY

Agent for Federal Life Insurance Co., Canada National Fire Insurance Co., Travelers' Accident Insurance Co., Great West Fire Insurance Co., Insurer of Marriage Licenses.

TREE AND A DISEASE

Malaria and the Effect Produced by Planting a Blue Gum.

During the latter decades of the nineteenth century it was a common practice to plant blue gum or eucalyptus trees in districts infested by malarial fever. It was held that the essential oil produced by the leaves combated the harmful vapors rising from the swampy fens with the poison of the disease.

THE MIDDLE WEST

Can Any One Really Tell Just Where He Is Located?

The east realizes a somewhat comical condition of affairs in the middle west. The middle west itself is by no means so sure about that. Although the practice begins at Ontario, N. Y., the middle west being formed middle westward.

ROME'S GREAT COLOSSEUM.

A Grim Theater of Death That Was Drowned With Blood.

The most imposing theater ever erected by mortal hands, a grim theater of death, consecrated by blood and tears, the Colosseum stands today a tremendous monument to Roman pride and degradation.

Almost a third of a mile to circumference, it towers 157 feet up into the air, the original and monumental "play to the gallery" of popular approval. In 80 A. D. Emperor Titus opened its history with a tremendous inaugural of a hundred days of "games" in which one fought with other men, with wild animals, and no one knows the exact date of the first sunset on its bloodied sands.

To make a Roman holiday? In the construction of the Colosseum its builders adhered to the new methods of superimposing the three orders—Doric, Ionic and Corinthian—so that it has exerted a greater influence upon the design of monumental works than any other Roman innovation.

But who thinks of that standing before it today with the golden Italian sunbeams glorifying every ear and corner, looking back from the dead past vividly upon the Roman holidays, roll of noise and color, laughter and bloody agonies, or when liquid moonlight transforms the classic rule into a magic fabric, where stalk the thin ghosts of saint and vestal, slave and emperor—National Geographic Magazine.

WHEN PETROLEUM WAS FREE.

That Was Very Early in the History of This Country.

The first reference to the discovery of petroleum in America was contained in a letter written in 1620 by Joseph de la Roche d'Alton, a French missionary working among the Indians.

He had crossed the Niagara river and made his way southward through western New York into northern Pennsylvania, where he found a spring of water which oil flowed. This oil was highly esteemed by the Indians for medicinal uses.

The history of the oil was published in 1825 in Rogers' "Histoire du Canada." This oil spring was probably the same as the one described by the Massachusetts Magazine in 1789.

"In the northern part of Pennsylvania there is a creek called Oil creek, which empties into the Allegheny river. It issues from a spring on the top of which stands an old millstone in the shape of a barrel, and from which one may gather several gallons a day. The troops sent to guard the western coast built at the same spring, collected some of the oil and bathed their joints with it. This gave them great relief from the rheumatism with which they were afflicted."—New York World.

How the Analests Method.

Andreas Bono is said to have consumed no less than 240,000,000 gallons of water a day, and one of the most noticeable features of the modern world is the prodigious expenditure of its water, gushing from fountains of every conceivable size and design.

The first reference to the discovery of petroleum in America was contained in a letter written in 1620 by Joseph de la Roche d'Alton, a French missionary working among the Indians.

He had crossed the Niagara river and made his way southward through western New York into northern Pennsylvania, where he found a spring of water which oil flowed. This oil was highly esteemed by the Indians for medicinal uses.

The history of the oil was published in 1825 in Rogers' "Histoire du Canada." This oil spring was probably the same as the one described by the Massachusetts Magazine in 1789.

"In the northern part of Pennsylvania there is a creek called Oil creek, which empties into the Allegheny river. It issues from a spring on the top of which stands an old millstone in the shape of a barrel, and from which one may gather several gallons a day. The troops sent to guard the western coast built at the same spring, collected some of the oil and bathed their joints with it. This gave them great relief from the rheumatism with which they were afflicted."—New York World.

Why is it?

When you are in a hurry why is it that you are so late?

There are no means of locomotion in sight?

You haven't any change?

Every one bumps into you?

You remember you have left the front door open?

At the bank you are blocked?

The last train has just gone?

You are held up by some bore?

You see the most beautiful girl in the world?

Your watch is wrong?

The other person is late and you are kept waiting an hour—Etc.

Knights of Old.

The knights of the days of chivalry were so well protected by their armor that they were practically invulnerable to all ordinary weapons.

Even when dismounted they could not be injured save by the misadventure of a thin dagger, which penetrated the joints of the armor.

In those days one battle knight killed ten other knights could not be killed until their armor had been broken up with axes and hammers.

The Healer.

Patience—There was a time in her life she could have married nearly anybody she pleased.

Patience—And yet she has never married?

"Never. You see, she couldn't please anybody."—Yonkers Statesman.

A Matter of Color.

He of Yale recalls—You, our family date back to the Normans. Blue blood counts for something. He—it won't count much with Pa. He's a Harvard agent—Boston Transcript.

In the Old Days.

Darlington—There's a woman used to wear such wide wedding rings. Blue Maroon—Because at that time, poor thing, they expected them to last a lifetime—Etc.
