A Scotchman's Address to Kaiser Bill

One of the strongest, if not the very strongest attack made on the Kaiser since the opening of the world war, is contained in verses given below:

"My Paper!"

My paper, because it informs, interests, and entertains me... My paper, because it gives me the news, each day, and places it in such position that I can find it easily...

ONE WASTE OF WAR.

The waste of war is not entirely to be figured in dollars and cents, ruined churches and broken crops. If we may accept the opinion of the New York Tribune, its greatest losses may be those things which never were allowed to live because their authors-to-be got no further than the first line of summary's trench of the war.

CLIMATE AND COMPLEXION.

Are Americans destined to become a Race of Brunettes? That the coming American race is destined to be a brunette type—and not because of the immigration of dark races, but in obedience to a natural law—was a prediction made in one of his recent lectures in London by Dr. Harry Campbell.

What Each Would Say.

"Two officers on foot a vessel the crew of which were part English and part Irish had a dispute respecting their captivities. The officer who favored the latter country asserted that the lower class of the English did not have the quality of the English which the Irish possessed. A last having taken place on the subject, it was decided by the answer which each countryman gave to a question. First the English sailor was asked what he would take to go aloft blindfold in a hard gale. "I would take a month's pay," replied he. "And you, Paddy," asked the questioner, "what would you take?" "Baggers," said Paddy, "I would take fast hold, to be sure."

Perwez's Campaign. The campaign production of the island of Formosa is one of Japan's monopolies. The present area of campaign production is 10,000 acres, and some of the trees are from 500 to 1,000 years old. The present area of campaign production will probably be greatly expanded.
