Brampton undertaker Disappears.

The Globe of this morning says "Much anxiety is felt over the mysterious disappearance of Mr. J. M. Crawford, an undertaker in Brampton for the past 30 years. He has not been seen since 7 o'clock last evening. He was on his way to the home of R. H. Pringle in connection with the arrangements for that gentleman's funeral which took place to-day. Mr. Crawford accepted a ride in a friend's motor car and was dropped off near the Pringle home. He stepped from the car a few feet from the Etobicoke Creek, then much in flood, and the fear is that he might have fallen into it and been carried away as no trace of him whatever has been found since. Mr. Crawford who was highly esteemed is a little more than 60 years old.

Importance of Pure Seed

Pure seed is an important factor in greater production. It might almost be said that it is the most important, for weedy seed having once been sown, it is impossible to fortell the damage that may be done to the growing crop, or the disappointment that may ensue when gathering or reaping time comes round. Hence, at this season of the year, when sowing is in prospect, a pamphlet issued by the Seed Branch of the Department of Agriculture at Ottawa, entitled "Cleaning Seed" is most timely and valuable. It tells of the implements that are needed and the methods that should be followed, especially in the cleaning of grain and grass seed. A letter to the Publication Branch, Ottawa, will bring the pamphlet promptly and without cost.

Nature Study

The teacher was hearing the class in nature. Trying to impress on the children's minds the horror of cruelty to animals she told the following story:

"Once a farmer went out to milk a cow and a little calf switched the man in the eye with it's tail The man took out his knife and cut off the calf's tail. Now children what verse in the Bible should that man have remembered?"

Of course she had referred to "Blessed are the merciful," but Philip had another answer:

"What God hath joined together let no man put asunder."

Care of Swine

At a time when every person who can is being urged to raise a pig, a pamphlet reprinted by the Live Stock Branch of the Department of Agriculture at Ottawa, entitled, "Feeding and Housing of Swine," comes most opportunely. The pamphlet, which can be had free from the Publications Branch at the federal capital, contains sections by three of the leading authorities on the subject in Canada. The first of these is Professor G. E. Day, formerly of the Ontario Agricultural College, who writes on the selections of the boar and sow and the management of both and of the young pigs. The second is Mr. W. J. Archibald, Dominion Animal Husbandman who deals with the farmer's cheap pigpens, suggesting the game of appropriate buildings with dimensions and other useful particulars. The third is Mr. G. B. Rothwell, Assistant Dominion Animal Husbandman, who deals with the same subject, but from a different standpoint. He describes a cheap, portable hog cabin that can be built and utilized by practically anybody who is willing to take the trouble. Illustrations of the cabin and diagrams with specifications are also given.

—I have 12 pair of soldiers boots, size 10 and 11 which are going to be sold cheap. These are a hard size to secure so come and take your pick at once for $3.50, worth $6 of any man's money. Also new boots for boys in all sizes from $1.50 up. Roney, the cheap Shoe Man.

Spring is Near

The following has been received from one of our spring poets and like the robin is a sign that spring is approaching:—

"Backward, swing backward, oh season of snow, mercury 35 or 40 below; turn on the heat of the tropical zone; roast me until I am cooked to the bone; I am so tired of freezing my nose; weary of chilblains and corns on my toes; weary of trying to sleep with cold feet, turn on the heat, Mister turn on the heat! Backward turn backward, oh time in your flight; give me July again just for to-night. Soften the ground, where the frost king has lain, oh! let me hear a mosquito again. I am so weary of overdrifts and ice, wearying of paying the coal trust its price; weary of eating frost-bitten pie, oh, give me a slice of the 4th of July.

Spring Wheat Seed
for Ontario

The world demand for wheat in 1918 justifies the greatest possible effort towards increased production. The small acreages of Fall Wheat put in last fall will mean increased acreage in Ontario available for spring wheat. The Ontario Government is co-operating with the farmers in order to provide seed. It has purchased 50,000 bushels of No. 1 Marquis Spring Wheat Seed through the Seed Branch of the Federal Department of Agriculture. More will be purchased if necessary to fill needs.

DISTRIBUTION—Seed is sold only in 2 bushel bags. Carloads will be placed at certain points in the Province where less than carload orders can be filled, the purchaser paying local freight from such distributing point to his own station. Where Farmers' Clubs or other organizations bring in carload lots, the price at their local stations will be the same as at distributing points.

WHERE TO BUY—Purchases may be made either in the warehouse at the distributing points, or orders may be placed with the nearest District Representative of the Provincial Department of Agriculture, or they may be sent direct by mail to the Markets Branch, Department of Agriculture, Parliament Buildings, Toronto.

PAY IN CASH—Price is $2.74 per bushel at Distributing Points. In all cases, without exception, cash must accompany order. Send remittance by marked check, postal note, post office or express money order made payable to Ontario Department of Agriculture, Markets Branch.

ORDER EARLY—In the event of the requirements of the Province being underestimated, there may not be enough seed to go around. It is advisable in order to insure having their orders filled that purchasers should place orders as soon as possible. All orders are subject to confirmation and will be filled in the order received. As seed is delivered in 2-bushel bags, order should be for even number of bushels, and no order for less than 2 bushels can be accepted.

NAMES OF DISTRIBUTORS at local points will be announced later. Distributing points at present decided are:—Chatham, London, Woodstock, Hamilton, Brampton, St. Mary's, Oshawa, Toronto, Port Hope, Port Perry, Peterboro, Lindsay, Barrie, Orillia, Newmarket, Listowel, Orangeville, Alliston, Durham, Simcoe, Welland, Palgrave, Kemptville, Brantford.
