**THE GEORGETOWN HERALD**  
 WEDNESDAY EVENING, MAR. 6th, 1918

**THE ONTARIO** Legislature has at last awakened to the need of legislation to combat the spread of venereal disease. When the public is made aware of the real and near danger they will demand that victims of the disease will be isolated as closely as smallpox patients until a cure is, if it can be, affected.

**HIGH SCHOOL** boys of the Dominion are to be mobilized for farm service this spring. It is expected that an army of twenty-five thousand of them will be obtained. This campaign should have two results. Besides aiding materially in the production campaign it should turn the thought and ambition of many a city boy away from the crowded marts of life to the freer and more satisfying life upon the land.

**A DAYLIGHT** saving bill has been introduced in the Provincial Legislature. Discussion on it may serve to educate the public to the advantages of the system and strengthen a similar measure which will likely be presented to Parliament and the Dominion when it meets. Provincial limitations are too narrow to secure the most satisfactory operation of the system. The principle should be Dominion wide, or better still, international in its scope, for convenience in the conduct of railways, steamships and, perhaps, other business organizations. By all means, let us put the clocks ahead an hour for the long night, but give the system a fair chance to work by the widest possible application.

**Public School Board**  
 The Board met on Tuesday evening with Dr. McAllister in the chair and Hunter, Kennedy, Thompson and Moore present. Minutes of previous meeting read and confirmed.

# A Truck for the Farmer

FARM equipment which will effect a time and labor-saving, and therefore a money-saving, must be carefully considered by every good farmer now-a-days.  
 The farm wagon, which for years was the most useful of all farm equipment, is now being replaced on the best farms by a sturdy, dependable motor truck. The truck will haul any farm product—fruit, grain, vegetables, stock, fertilizer, or wood—around the farm, or to the town or city many miles distant, in half the time, and at a much lower cost.

The Ford One-Ton truck is a rapid, economical and very serviceable means of transport. One of these on your farm will save you weeks of time in a single season and will enable you to pass through a crisis of labor shortage with less difficulty.

The Ford truck is supplied as a chassis only. This permits you to select any of the many body styles especially designed for the Ford truck and already on the market. Thus you can mount the one which suits your individual requirements.

Price \$750 f.o.b. Ford, Ont.
