Bicyclist's Foot Crushed by Motor Some boys while riding bicycles ar prone to hang on to passing mot; vehicles. This is distinctly against the Highway Act. Last Friday an Appleby school boy named Thompson, a Nova Scotian, was practicing this trick when he met with a painful and severe accident. Falling . from his wheel, the heavy motor ran over his foot, breaking a bone and crushing the foot severely. The bone in his arm above the elbow was also split. but not broken. He was taken in an ambulance to the Toronto General Hospital, and it will be two months before he walks again.-Oakville Record:
