Our schools will open on Tuesday morning.

Labor Day next Monday—Public holiday.

Work is in progress on the paving of Main street.

A special meeting of Council will be held in the Council Chamber this Friday evening.

—A few nails in the white bridge would prevent the unearthly rattle caused by rigs passing over it.

In all probability the Government will fix the date for Thanksgiving Day to be held in November this year.

The convalescent soldiers from Burlington motored to Milton today in some 90 cars, and are being entertained by the town. They were addressed by Dr. Anderson M.P., and others.

I have a stock of the best make of McPherson shoes and will sell them at \$5.00, which is from \$1.00 to \$2.00 less than you can get this shoe for anywhere else. I have no clerks to pay, no high rent, and nothing to worry me so I can sell you a good light split boot for plowing in for \$2.50. I will repair the boots I sell at about half price. I don't want to waste good leather on cheap trash boots. Buy your boots where you are sure you can get them good and repaired cheap by a professional man at the business—J. Roney the Gold Boot, Georgetown.

#### Bowling

On Monday Milton sent up a rink to try and capture cup but they were defeated as follows:

H. Dickie E. Turner  
T. McKay C. Cawley  
J. W. Kennedy D. Gordan  
Jno. McDermid A. McGibbon

On Tuesday Acton came down with two rinks, one for the cup, and one for a friendly game. Both were defeated, as follows:

Acton—Gould skip 9  
Georgetown—McDermid skip 28  
Acton—McNab skip 17  
Georgetown—LeRoy Dale skip 18

#### QUEBEC BRIDGE STANDS STRAIN

Under ideal weather conditions and in the sight of thousands of anxious spectators, the Quebec bridge, one of the world's greatest engineering feats, withstood the supreme test to which it was put, when two huge trains loaded to capacity and weighing approximately fourteen million pounds, steamed out over the central span, and their weight was allowed to rest on the span simultaneously. Although "no special trains were run to the site of the bridge, thousands of people from the city and surrounding districts motored to witness the gigantic trial, and as it was seen that the enormous weight of the two trains had no effect on the huge structure, a mighty cheer rose from the assembled throng, which almost drowned the piercing whistles of the locomotives of the bridge.

**Guelph Railway Dividend**

The value of the Guelph Junction Railway as an asset of the city of Guelph, was again demonstrated this morning, when another dividend, the largest in the history of the road, was fixed.

It totals to \$17,000, or ten per cent on the capital stock owned by the city.

The total dividend of 28

8 per cent, declared for the past nine months of the year, and if the next quarter comes up anywhere near to the standard of the past one, the dividends will amount to considerably over 30 per cent.

#### New Highway

The provincial highway from Hamilton to the Niagara frontier, taken over by the Ontario Government, will not follow absolutely the Queenstown and Grimsby or Stoney Creek road. It has been decided to follow Main street from Hamilton to the point near Stoney Creek where the old road turns off.

This route was preferred to the Barton road and the Stoney Creek road itself, since it avoids the Red Hills railway crossing and is clear of radial railway tracks.

It is a mile shorter than the Creek road, and the clear land on either side permits of widening to 90 feet, the width desired for provincial highways.

#### A Hand Book for Dairymen

Report No. 10 of the Canadian Record of Performance for Purebred Dairy Cattle constitutes a hand book that dairymen can hardly do without.

It gives the rules and regulations governing the records of performance; the standards for registration; the records of performances of all purebred dairy cattle in the country; convenient summaries of reports exact details of the records achieved and the addresses of the owners; a record of the cows that have produced sufficient milk and fat to qualify but have failed to freshen within fifteen months after the commencement of the test; a list of bulls open to registration and an index to owners. The whole forms a valuable and concise book of dairy records that can be had free on application to the Publications Branch, Department of Agriculture, Ottawa.

**Signed "Olive" Wine**

Some five barrels marked "Olive" attracted attention at the Grand Trunk station at Oakville on Wednesday evening, but true enough the liquid looking out had the odor of olive oil.

When the barrel was pulled by Inspector Hay, there were the olives all right.

But who wanted five barrels of olives? The head of one barrel was removed and there nestled a hundred bottles of pure whisky.

The olives only filled a small pipkin leading to the barrel and the barrel was a blind.

The other four barrels contained the same bottled goods and now five hundred elegant bottles are being shipped to Ontario government officials at Toronto.

The "real goods" were removed from the station to the cells for safe keeping.

The barrels shipped here were consigned to persons of foreign names and the seizure will mean a loss of a cool thousand for some person or persons.—Star.

For information, literature, tickets, etc., apply to Mr. J. C. Crookman, General Agent, or wife, Central Railway Department, 68 King Street East, Toronto.

What Will You Do

For Help?

FARM help is scarce, but this condition can be relieved

to a marked degree by using matches that accomplish

more work in a given time with less man power.

Why should the farmer cling to horses—a slow, expensive

means of power—when every other business is adopting

the truck and thereby reducing the cost of hauling, speeding

up deliveries, and saving for human needs the food that

the horses would otherwise consume?

The motor driven truck can work constantly at maximum

load under the burning summer sun, or in the coldest weather.
