The theory that advertising doesn't always pay receives corroboration from the fact that Germany spent \$50,000,000 on its propaganda in the United States. But look at the rotten goods they advertised.

Sailors' Week

This week is Sailors' Week. To the Merchant Marine of the Empire we owe a tremendous debt of gratitude, which can never be fully paid. The heroic men who have sacrificed untold dangers of the deep to keep the ocean lanes of transportation open and feed the heart of the old Empire and her European Allies have rendered us all a service in this war which is second to none in importance. Fifteen thousand of these noble men have found their graves beneath the waters, slain by the ruthless submarine and the hidden mine. Their families suffer the same need and loss as the dependents of the regularly enlisted naval seamen.

But those merchant sailors and their families do not share the rewards and pensions of the naval warriors. Hence the absolute necessity that a greater Empire should generously come to their aid. Thousands of Canadian sailors are in this merchant service and they will benefit specially from the fund raised in Canada.

The opportunity comes this week. The Navy League of Canada make their first appeal to us in behalf of the sailors of the British Empire for one million dollars or more from Ontario. Every citizen will surely be more than ready to respond. No argument is needed to strengthen the appeal. The sailors have saved us, now we must save their dependents.

I have a stock of the best make of McPherson shoe and will sell U.S. calf at \$5.00, which is from \$1.00 to \$2.00 less than you can get this shoe for anywhere else. I have no clerks to pay, no hire, rent, and nothing to worry me so I can sell you a good light split leather for plowing for \$2.50. I will repair the boots I sell as about half price. I don't want to waste good leather on cheap trash boots. Buy your boots where you are sure you can get them good and repaired cheap by a professional man at the business.—J. Roney the Gold Boot, Georgetown.

One Thing we have long dis-covered: A man cannot keep up with his running expenses by in-digging in a walk over.

Ready for Trouble

A good one is told of the apt re-y of a young woman who was about to enter into the bonds of wedlock. She was being congratulated upon her approaching wed-ding and was wished every happiness. "Well," she replied, "Ah just want to say that if there's to be any rumpus at think an kin uphold my end of the argument."

No Pleasure Autos

After January 1st, 1919, American automobile manufacturers must not make pleasure cars. This is a ruling of the War Industrial Board that is causing considerable agitation in the motor trade and among motoring citizens generally.

The reason for this restriction is that Uncle Sam needs the material that would be employed in the manufacture of pleasure cars, and also needs the motor factories and the motor mechanics for war purposes.
