**Hurt in Auto Collision**

On Monday evening as Mr. Robt. Lasby was driving a rink of bowlers home from Kitchener, a motor coming toward them ran head on into his car. Mr. Lasby had driven to the side of the road nearly into the ditch, and the driver of the other car appeared to lose control. Both cars were badly damaged. The front axle of Mr. Lasby's car was broken. Mr. Robert Scott was the only person who received any injuries. He was thrown out of the car and had his right leg badly bruised and the ligaments strained in the groin. He is very thankful, however, his injuries were not worse. The other car was clearly responsible for the accident.—Free Press

**Not Done by Protestants**

The Toronto Daily Star last Friday referred to the recent desecration at Dublin Cemetery as follows: "The Star has received a letter from a correspondent, with a request to publish the document, in which charge is made that on the night of July 12th deprecation were committed in a Roman Catholic cemetery near Aton, Ontario, and the writer alleges that the Protestants who paraded on that day were responsible." The Star has made enquiries into the matter and has learned from the Attorney-General's Department at the Parliament Buildings that the Crown Attorney of Hatter County had informed the department of the occurrence and asked for an investigation. Inspector Roburn of the Provincial Police was sent to investigate, and has made a report to the department. He is satisfied that the desecration was not done by Protestants but by a number of persons who are not Protestants and had nothing to do with the deprecation at all.

**Facts Regarding the Merchant Sailor**

Until very recently his wage was pitifully small, about \$15 per month. It is now \$60 per month.  
He has poor food and worse quarters.  
He buys his own clothing.  
He has no insurance or pension.  
He has no Patriotic Fund to help him or his dependents.  
He has no comforts sent him as are sent to the soldiers and the naval bluejackets.  
He has no food boxes sent to him if a prisoner.  
He works continuously, four hours on, four hours off, twenty-four hours a day, seven days a week.  
He cannot tie up comfortably at night.  
Four thousand of his pals are prisoners of war.  
He gets no decorations and no triumphal home-coming.  
He wears no gold lace.  
He has carried on his back from Canada to the front \$1,800,000,000 worth of munitions, more than enough to off set the entire national debt of this Dominion.  
He has carried over literally billions of dollar worth of meat, wheat and other products from this country.  
He has delivered safely without loss of a single life our Canadian Army of approximately 600,000 men.  
He has carried over eighty per cent. of the American Troops.  
He has transported over fifteen million fighting men from port to port, their food, their munitions and their horses.  
Through him have been fed the inhabitants of the British Isles, of France, and largely of Italy and the other Allies.  
He is performing a greater national service than the Navy or Army, because neither could exist without him.  
Three hundred thousand of these men are now serving in this national service, volunteers all—no conscripts.  
Fifteen thousand have been murdered by U-boats or by mine.  
Over forty thousand of their dependents are left to struggle for themselves.  
The various Sailors' Orphanages, Homes, Institutes and Benevolent Societies caring for the orphans have had their revenues almost entirely obliterated while the demands upon their resources are ever increasing.  
Putting to shame Lundsdownism and all who during peace times have waxed fat, bloodless and so highly manicured and sandpapered into what they term the higher spheres of uplift that they would make an inconclusive peace and thus leave to our children a heritage of further blood-shedding, their Sailors' Union, endorsed by the Sailors' Union of France, has irrevocably refused to associate with Germans for seven years after the war.  
1. By refusing to man any Merchant ship destined to a German port.  
2. By refusing to sail with a ship that has any Germans in its crew.  
3. By refusing to man any ship carrying German goods.  
In short, they have irrevocably declared that after the war Germans shall be banished from the sea they have so foully disgraced by their murders.

**SEEK OF WIFE'S HOME**  
I found it imperative for him to take seat on the other side of the hall and look over some notes in his own pocket. From time to time he looked up at Martha. She was the same delight girl and there was the same air of perfect grooming about her. He would never have noticed the blemish in her grooming, had it not been for her quick effort to cover up the wrist of her hands at the same time. Then he saw that over each was fastened, an kept in place by a metal paper clip, a large sheet of copy paper, such as his getting office grime on a fresh blouse but Bowden had removed her cuffs in haste. Then the check boy, who was at the telephone, spotted Martha's little game of pretence. "Here's a message for Mrs. Snodgrass' secretary," he said, and Martha . . .
