The Georgetown Herald

Wednesday, September 18, 1918.

JUST THE SAME

When Moses and his soldiers from
Egypt's land did flee,
Their enemies behind them, and in
front of them the sea,
God raised the waters like a wall,
And opened up their way;
And the God that lived in Moses'
time,
Is just the same to-day.

When David and Goliath met, the
wrong against the right,
The giant, armed with human po-
wer, and David, with God's
might,
God's power, with David's sling
and stone
The giant low did lay
And the God who lived in David's
time
Is just the same to-day.

When Daniel, faithful to his God,
would not bow down to men,
And by God's enemies was hurled
into the lion's den,
God shut the lions' mouth, we read,
And robbed them of their prey.
And the God who lived in Daniel's
time
Is just the same to-day,

When Jesus in the wilderness,
those hungry people fed,
He multiplied the fishes, He mul-
tiplied the bread,
For daily bread and all our needs,
He teaches us to pray,
And the Lord who filled those peo-
ple then
Is just the same to-day.

FROM OFFICIAL STATISTICS compiled by the International Institute of Agriculture it appears that Canadians are the greatest bread eaters in the world with the sole exception of the Danes. In Denmark the average consumption of wheat per annum and per capita during the first three years of the war reached 428 pounds, which easily beats all records. Canada comes second with an annual consumption of 192 lbs. per capita. Spain is in the third place with 168. The people of the United Kingdom and those of Norway consume 98 pounds per head per annum. In Sweden the annual consumption for each individual has been 108 pounds, for the United States and Japan only 80 lbs.—about half of the Canadian consumption. In France war rationing has not imposed serious privations. The average consumption for the first three years of the war was 58 pounds per capita per annum. It was slightly less than 50 in Egypt and Tunis according to the same statistics. The people who eat the least bread are Italians and Argentines who use only 12 pounds per capita per annum.

The French Farmers Saved the Day

The saving farmer is a national asset. Canadian progress to-day in all lines attests magnificently to the splendid qualities of thrift that have marked the farmers in all the provinces. The total returns from field crops and animal produce have been only possible because of the disposition to make use in an economical way of all the wonderful gifts of Providence in this good land of ours.

The same was abundantly true after 1870 in France when the frugal, thrifty farmers of that fair land made it possible for the Republic to pay off that hated German war indemnity of two billion francs levied against them. The same spirit of national thrift built up France for the extreme test today—a test that is being tried by fire.

Thanks be, French heroism is proving true. The line is holding. The blood of the farmers is flowing equally as well through the veins of France's daughters of the soil and so the national strength bends but does not break.

Canada is reaping her harvests of increased returns and money is being made as never before. Our farmers are earning the gratitude of all in their splendid efforts at production. That they will carry into their savings an equal foresight in conserving their surpluses against the future days of darkness and lower prices will be equally praiseworthy. He is well advised who saves his extra dollar until he sees which way the winds of to-morrow will blow. Adversity blows a chill blast where there is no dollar in the savings.

Summer Dress Cancelled

The military authorities have issued an order, cancelling summer dress. This means that all soldiers must now wear their belts and puttees, and all men who are convalescent and in hospital, must wear the familiar blue band on their arm.

Shooting Season Opens

The duck shooting season opened on Monday, but the Provincial Game Warden warns all sportsmen that wood ducks are prohibited until 1925, partridge till 1920, and grey and black squirrels must not be shot under the severest penalties. A word to the wise ought to be sufficient.

Traveler Fined $1,000

As the result of a seizure of liquor made by the Hamilton police on the Guelph road, last Wednesday, Lawrence W. Smith, a Toronto traveler, was fined $1,000 in police court, while William Webber, of Niagara Falls, who with him on the motor truck, was remanded. The liquor, consisting of 450 bottles, was found packed in tea chests and was consigned to Niagara Falls. Webber claimed he knew nothing about the liquor and Smith verified this.
