France Welcomes Babies.

Babies are set free in certain apartment houses in Paris, lowering the policy prevalent in apartment houses, the owner of one of the newest houses in the French capital will not take in a family which has no children, and the size of the suite obtainable depends entirely on the number of children rather than the number of children. A list of qualifications has been prepared by the owners of these houses and tenants must meet them. A family with one child will not be admitted to the largest apartments in the house. It will have to take one of the smallest suites. A family with two children will be permitted to take a large apartment, three children the next largest, and four children the next largest suite in the house. A family must contain at least one child in the house the largest suite. There is reason to believe that the government is interested or will be interested in these houses, as France has succeeded in every possible manner a larger birth rate.

Set Limit to Licenses.

"Don't try to sell licenses in New Zealand." This is the advice United States Consul General Winslow gave American merchants in a commerce report.

"No, New Zealand is not prepared for money. Its wallet is well filled. There is no particular necessity for merchandise," as the consul puts it, but the public is opposed to the purchase of goods, especially luxuries that have to be imported, thereby using a huge amount of the U.S. dollars.

Trinidad, too, and the whole of the British West Indies, is absorbing from use of imported goods. This has caused the population to change. Its whole menu, for many foodstuffs were formerly imported. Now the people eat home-grown plants that only the animals ate before. They like them better so well they say they will never again import any staple food, except cornmeal.

Win-the-War Wig.

A wig to help to win the war has been "invented" by an American cut-throat manufacturer. It is made of 2 fibrous material in two colors—green and reddish brown.

It fits down tight over the helmet and, while the soldiers are marching through the woodlands, blends into the forest so splendidly and naturally that 300 feet away nobody can tell that a company or a regiment of soldiers is on the move.

Then when out of the woods and back in the trenches all the soldier must needs do is to take off his wig and reverse it and he is topped with a reddish-brown top piece, invisible against the earthwork of the trenches.

Must Take Time to Submerge.

It requires at least five minutes for submarines of the latest type to submerge. A submarine cannot dive quickly under way, because the water connection with the ballast tanks must be let into her ballast tanks to make her heavy enough to sink. It must be let in comparatively slowly. If it were let in with a rush the boat might not go down on an even keel, but would heel over and be in great danger of disaster. Then, too, if water were let in too quickly there would be danger of too much entering into the tank, the submarine would sink like lead to the bottom of the sea.

Acton

Another gasless Sunday was fairly well observed by Acton motorists.

Miss Violet Ruddy, of Georgetown, was in town during the week. William Mullip & Son carried off a number of the prizes for sheep at Georgetown as well as at Acton.

The Reeve is in receipt of an acknowledgment from the business manager of the Sailor's Campaign Fund for \$277.75 from Acton. Very creditable for our town.

Mrs. (Dr.) Lawson and Mrs. E. J. Gamble, of Acton, were successful exhibitors at Requeuing Fall Fair last week.

From the early days of the war Lt. Col. (Dr.) Cameron A. Warren has been one of the most active and useful officers in connection with the Canadian and British Expeditionary Forces overseas. As an Acton boy we have been proud of his career. From post to post he has shown his courage, his performance and responsibility. Lt. Col. Warren has recently been selected to take command of the Field Ambulance which accompanies the Canadian Expeditionary Force to Siberia. He secured his commission with the British and Canadian Recruiting Mission in New York on September 20 and left for Siberia on Friday, September 27. He will organize his ambulance corps in Victoria, B.C., and proceed overseas at an early date. Mrs. Warren accompanied Col. Warren to Victoria. Free Press.
