Clear the Decks!
Get ready for action!
Forget each attraction
That leads you away from your part!
What part'll you have shown
In this VICTORY LOAN?
Will you back it with all of your heart?
Canadians fighting
Are daily delighting
Their Allies with proof of their skill!
The foe they're pursuing
How much are YOU doing
To give the mad Kaiser his fill?
You know of a way
You can help win the fray—
Quite clearly this way has been shown.
Canadians all!
Arise at the call
AND CARRY THIS VICTORY LOAN!
—William F. Kirk.

THE FOLLOWING are extracts from the speech of Sir Thomas White delivered at Winnipeg when he explained the terms of the new Victory Loan:
"The success of the Victory Loan is absolutely essential to the prosperity of Canada."
"The Victory Loan is a vital factor in the creation and continuance of our prosperity."
"Last year's Victory Loan was the means of finding a market for hundreds of thousands of dollars of our produce, and this kept Canada prosperous in all lines of national activity."
"Without it (Victory Loan) our farmers would have failed to sell their produce and hundreds of factories would have been closed."
"The Victory Loans are furnishing the capital for the nation."
"It is the Victory Loan's success means five hundred million dollars of new business for Canada."
"Prudence enjoins all to save money for the period of readjustment."
"What better investment for the people than a bond of Canada backed by all its resources joined to the industry, intelligence and enterprise of the Canadian people."

Do You Know
1. That the principle and interest on \$1000. invested to yield 5% interest, payable half yearly, and the interest re-invested at the same rate in 15 years amounts to \$3907.88 (compound interest).
2. That even if the interest is not re-invested the total amount in 15 years would be \$1825. (simple interest).
3. That the interest and principle on a \$1000. Victory Bond, maturing in 15 years would amount to the above.
4. That prior to the war Dominion of Canada bonds sold to yield the investor only 3 1/2% to 4%.
5. That when conditions return to normal these bonds will be in great demand and will have much increased in value.
6. That a \$1000. Victory Bond maturing in 15 years, bearing interest at 5%, payable half-yearly, if sold to yield the buyer 8% would sell for \$1291.80.
7. That a Victory Bond is the safest investment in the world. It is really a first mortgage on every piece of property, on every industry and on all natural resources in the Dominion of Canada, and as such ranks ahead of all other liabilities.
8. That the Victory Loan Committee, Toronto, will buy your bond at any time you may desire to sell at a minimum price of 90 and interest. Merely take it to any bank manager. He will attend to it for you.
9. Your banker will confirm the above figures and information.
Do your best and a little more.

Result of 1917 Victory Loan

The over subscription of the 1917 Victory Loan gave us new lease of life to our agriculture, commerce and general prosperity throughout the Dominion of Canada.
For the farmer it meant that the Loan was able to finance the only purchase that could buy his excess products, namely: Great Britain. Our total exports of agricultural and animal produce in 1916 amounted to \$209,000,000. For the fiscal year ending 31st March 1918 they exported not less than \$740,000,000, the largest export in one year on record.
The Loan likewise benefited the manufacturer. Manufacturers' exports in 1918 amounted to \$95,000,000, whereas manufacturers' exports for the twelve months ending March 31st, 1918, amounted to \$88,000,000, an increase in three years of \$651,000,000 or 648 per cent. A remarkable growth due to the success of the Victory Loan.
It might be interesting to note that our Government is advancing credit to Great Britain at the rate of \$40,000,000 per month of during the seven months from December 1917 to June 1918 a sum of \$280,000,000. In addition to this Canadian manufacturers are receiving cutting immense orders for the United States, which is bringing large sums of new money into the country.
Every cent raised by the Victory Loan will be spent in Canada. Our manufacturers and our farmers. The success of the 1918 Victory Loan means continued prosperity throughout the Dominion. Good returns for the farmer and large salaries for the working man.
