Q. How does the loan affect the people of Canada? A. Without it our war effort would collapse our industries would suffer a great farmers alike would lose their for-

Q. What has the loan done for the farmer? A. It has bought

to these products without the loan? A. Most of the wheat would have been unsold, the price would have been greatly reduced, and the cheese and bacon would have been a drug in the market.

Q. Has the Loan established new industries? A. It has revived ship-building and created new and bustling ship-yards on the shores of the St. Lawrence and the Great Lakes. It has brought into being great plants for the making of aircraft.

Q. What do these mean to the country? A. The employment of thousands of well payed men and women and their development into highly skilled workers.

Q. Does the Loan reach widely in the distribution of the money? A. It reaches virtually everybody in Canada. All the great industries are benefitted, while the financial and mercantile classes all reap their share as middlemen. Q. Why is it necessary to raise

the loan in Canada? A. Because

there is no other place to raise it.

Our Allies are burdened to the limit, and we must carry our own load. Why is Germany fighting? A. To dominate the world and crush civilization under her cruel militarism. Gereral Von Bernhardi wrote years ago: "Our next war will be fought for the highest interest of our country and man-

kind. World power or downfall

will be our rallying cry. Q. Why is Canada fighting? To save herself and civilization from this dastardly attack on the world's liberty.

Q. What part has money this fight? A. While armies of men-are indispensable, no country can make war without "silver bul-
