The suggestion by our correspondent to another column, regarding the erection of a monument to the memory of the brave boys from our town who have fallen during the great war, is very timely and should certainly be acted upon. It would be a disgrace to the community were we to neglect to commemorate the memory of those heroes who died for the freedom of the world. There should be no difficulty in raising a sufficient sum to erect a suitable monument. When the meeting as suggested is called, we hope to see a large attendance and the proper steps taken for the carrying out of this suggestion.

IN THE ALLIED COUNTRIES demobilization of the home forces is proceeding, but it will be some time before demobilization begins at the front. The allied army will follow up the German retreat from occupied territories and eventually penetrate into Germany and it is necessary to keep them up to strength until it is seen what is going to happen in Germany. The British government has prepared a plan for demobilization in three years. The process includes the despatch of soldiers home at stated intervals, according to their pre-war occupations. The problems, however, will remain of dealing with the returned soldier, for after his experience at the front he will require a long rest and retraining in his calling. Active service makes a man as a rule speedily forgetful of his trade in civil life.

NOTICE by the daily press of the National Council of Georgetown in the United States and Canada, that the allied forces are being retrained in the United States and Canada.

Correspondence

To the Editor Georgetown Herald.
 Dear Sir:—Now that the Allied cause has triumphed the cause of liberty and civilization saved and Kaiserism completely destroyed, we are all joyously looking forward to the coming home of our soldiers whom I am sure will receive a rousing welcome in keeping with the noble fight they have made against the mad dog of Europe. Also in keeping with the honor which they have brought to Canada and our own town. Let us not forget however those of our boys who gave their lives on the altar of liberty, and who now sleep on the plains of Flanders far away from their native land.
 I would suggest that a Memorial be raised to the memory of those heroic soldiers of Georgetown who gave their lives that you and I and future posterity might live in freedom and that civilization might be saved. I feel sure every citizen would nobly respond and a fitting Memorial could be erected in Georgetown for this purpose. I suggest that the Council
