LET TO-MORROW TAKE CARE OF TO-MORROW

Leave things of the future to What's the use to anticipate sor

Life's troubles come never too If to hope overmuch by an error, 'Tis one that the wise have pre-

And how often have hearts been in Of evils that never occurred.

Have faith and thy faith shall Permit no suspicion and care That invisible bonds do enchain

But bear what God gives thee to

By His spirit supported and glade Be not by forehodings deterred, But think how hearts have been

By fear of what never occurred. Let to morrow take care of to-mar-Short and dark as our life may

We may make it still darker by Still shorter by folly and fear. .

Half our troubles are half our in-And how often from blessings conferred Have we shrunk in the wide ap-

prehension Of evils that never occurred.

ONCE MORE it is declared that knee breeches for men are coming in again. Never for us, no, never! We'll go about in our pyjamas first. Whatever else happens we men cling to our pants—we were always in a hurry to don them when youths, and now that we've got 'em, though women may don them, too, we're not going to be shortened, no s-i-r-r-e-e! Not by a darned sight. Man has sacri-ficed considerably during the war by making one suit do where two were wanted, but there is a limit to the sacrifice. If the ladies are content to expose their limbs we men are not going to show our legs-not even if they are encased in beautiful ailk hosiery! For one thing men as a rule haven't been cultivating shapely legs like some people we have heard of, and you bet we know better than to go around showing our legs to the gase of an amused and sarcastic

Men are divided into two classes -those with bandy legs, built for service and durability, along the lines of a truck horse, and those whose nether extremities resemble a pair of stilts stuck in huge shoes. Not even for the sake of the fashion artists are we going to show which of these classes we belong to, so now then!

Inglewood Storekeeper Fined

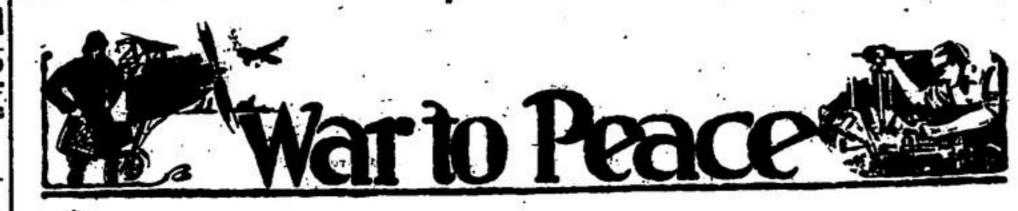

A Dominion government officer laid a complaint against Mr. Mayne, a newcomer in Inglwood, who conducts a store there. Mr Mayne's offence was leaving off a government stamp from a package of salts. It cost him \$50 and costs. The same officer laid a charge against Mrs. Baird, a widow, with six children, who ignorantly sold a box of unstamped matches. The latter was allowed to go on suspended sentence. The officer who laid the complaints is a salaried man employed by the Union Government.—Brampton Banner.

Bridge Matter Unsettled

The Tansley bridge matter is still unsettled. At Tuesday's session of the county council the matter occupied nearly all of the afternoon. Engineers Bell and Connor and Contractor McLeod were all heard at length. An offer was submitted by the contractor to finish the work on a cost basis provided all the bridge accounts to date are settled by the county. These amount to some eleven thousand dollars. The engineers agreed on an estimate of twentyfive thousand dollars to complete the bridge and pointed out the se veral methods under which the work could be proceeded with. The council was undecided as to the best steps to be taken and ad journed without reaching a deci- Main Street sion, other than an application be made to have the road made a provincial county highway.

Dundas Street a Highway There is an agitation along Dundas street from Cooksville to Dundas to have that road made a pro-vincial county highway. This will be of great interest to resi-dents of Toronto, Trafalgar, Nel-son and East Flamboro townships and would mean that Dundas street would be reconized as a through highway. At the last Halton county council meeting a resolution was carried appointing the warden, and the reeves and deputy reeves of Trafalgar and Nelson to join with Wentworth and Peel counties in waiting on the minister of public works to have Dundas street made a provincial county road. This would mean that the government would contribute tixty per cent toward both the construction and the maintenance of the road. A rebe twenty eight feet in width with stone sixteen or eighteen feet wide. It would also mean the building of a high level bridge at sixteeen and the widening of the new bridge at Tanaley to twenty feet instead of eighteen.—Raformer

To Solve Canada's Employment Problem

I VERYONE in Canada should understand just what the Government is doing to solve the unemployment problems that may arise through the demobilization of our fighting forces

(1) Employment Offices.

So that everyone male or female, soldier or civilian canget quickly such jobs as are available the Government is cooperating with the Provinces in establishing a chain of Public Employment Offices. Employers are being urged to make use of these offices to secure any help they need. Farmers, for example, who need hired men should apply to the nearest, There will be a Public office. Employment Office in every town of 10,000. people-and wherever the needfor one exists. There will be 60 different offices in all-one-half are already in operation.

(2) Employment Opportunities. The war held up much work that will now be carried on at once. Public works, shipbuilding, roadbuilding, railway work -construction of bridges, improvement of road-bed, making of new equipment-these will provide new opportunities for employment. In addition, the Government has sent a Trade Mission overseas to secure for Canada a share in the business of providing materials and products required for reconstruction work in Europe. It has also

\$25,000,000 to be loaned through the Provinces to encourage the building of workmen's houses. This will mean much new work in the spring.

(8) Land and Loans for Soldiers To help soldiers become farmers the Government has developed a programme that includes the providing of land, the granting of loans, and the training and supervision of those inexperienced in farming. At present, the soldier is granted, free, in addition to his ordinary homestead right, one quarter-section of Dominion lands. He also receives a loan up to the maximum of \$2,500:

These original plans are now being broadened. If Parliament passes the new proposals during this session, the Soldier Settlement Board will be able to buy suitable land and re-sell it to the soldier at cost.

Land up to the value of \$5,000 may be bought by this plan-the money to be repaid in 20 years. The low interest rate of 5 per cent. will be charged. These new proposals will also permit the Soldier Settlement Board to loan the soldier-farmer up to \$2,500 for purchasing equipment, etc., in addition to \$5,000 loan on his

THE BRUNSWICK

Has them all beaten and you will be convinced if you will call and let us demonstrate.

For the Brunswick's excellence in Violin music, here is opinion of Wm. Junck, a Virtuese of national fame:

"As a Violinist I have been more interested in the phonographic reproduction of that instrument than perhaps any other. I have subjected the Brunswick to very thorough tests on Viclin records, of all makes, and can say that your instrument reproduces the Violin better than any phonograph I have ever

This is the only phonograph made in Canada that will play all records properly. It stands magnificently alone. Brunswick faithfully reproduces the real voice of the singer and tones of all instruments. Come in and hear this final phonograph and let your ears be the judge. I can give you one on EASY
