LOVES LABOR

What have I done to-day? now let me think. I haven't read the book I should have read. I didn't make that call on Mrs. Brink. Nor spend the youth-restoring hour in bed. Nor massage out the wrinkle in my cheek. I didn't bake the fruit-cake but may be I brought the well-sung my own toy chest. Close, obdurate and content upon my knee.

What have I done to-day?—I missed the Guild. And quite forgot my shopping trip to town. My make-up with tremulous anxiety. I left the cover of my organ down. I didn't see the new figure on my hat. But, son and I played marbles on the floor. And there was virtue quite as much in the chest. Purchase than though I had no completed more.

What have I done to-day?—now let me see. I've put the paltry things from out my soul. I've mothered Laddie and he's playing with me. And we've been happy; making that my goal. I've learned why God, creating human kind. Made Mothers to be guarded safe from harm. To train a baby's active, eager mind. To hold a little lid in loving arms.

Correspondence

Milton, June 26th, 1919.
The Editor, Herald,
Georgetown, Ont.

Dear Sir:—Following our conversation by telephone this morning, we now enclose copy of letter we are sending to Dr. Watson. We should be much obliged if you will print this in the next issue of your paper. We trust that the facts as stated in this letter will at least show that our intentions were good. We shall be pleased for you to attend any of our meetings and visit the Shelter at any time.

Yours faithfully,
C. H. Stuart, Treas.

Dear Sir:—We notice in the last issue of the Georgetown Herald a copy of my letter to you of May 31st with a note attached apparently complaining of lack of courtesy on part of the Children's Aid Society of the County of Halton in not advising you of the date of the formal opening of the Shelter.

At one time we had thought of sending a formal invitation to all societies, institutes, and individuals who had in any way contributed or assisted in the work. At the last meeting of our Executive we found that this plan would require a great many letters and even then we would be apt to miss some and cause offense. It was accordingly decided to give an invitation in at least one paper in each town in the County. Our Secretary informs us that she sent out all of these notices at one time on Monday evening of last week. We have now called up the Georgetown Herald and are informed they received no such letter. Under this circumstance we can understand your feelings.

Our secretary can in no way account for this letter going astray. She says they were all mailed at once and we believe the others reached their destination. However no matter how far we may have overruled in this and other matters, we can assure you that it was far from our intention to slight anyone. Our Children's Aid Society has done much hard work and have been heartily supported by the County Council, Municipal Councils, and citizens of the County,—and among these the people of Georgetown have responded nobly. In fact it would appear that all have worked together harmoniously for one common aim in the welfare of dependent and neglected children of this County.

We trust that you will accept this explanation of us along with our regret for our failure in getting this invitation in your paper.

The Executive of our Society meets each month, now at the Gordon Home at 8 P.M. (new time) on the first Friday. We shall be pleased for your officers or any people interested to attend and take part in these meetings. Communicate with Inspector Norton directly on all matters relating to children requiring attention.

We shall be very much pleased if a number from your town could attend our first meeting on Friday of next week or at any time convenient for you when our Committee will be pleased to show you through the premises and discuss matters for the good of the work.

Yours faithfully,
C. H. Stuart
Treasurer Children's Aid Society of Halton and Joint Board of Management.

ville I have heard from, but not from Burlington so far. I feel very badly Mr. Editor, that this has happened, but I trust wherever the fault may lie, it will be overlooked and that the good people of Georgetown will understand that certainly through no fault of the Local Children's Aid Society were they neglected or forgotten intentionally, and you will accept this explanation in the spirit in which it is given.

Yours cordially,
Mrs. Fong J. Brown,
Sec. Children's Aid Society for Halton.

BOOTS

We can and will back up what we advertise, that we will make Georgetown the cheapest place in Ontario for good boots and cheap and good repairing. We save you 25 to 40 per cent. on repairing and from \$1 to \$8 on new boots. We handle the best made shoes in Canada, that is the Macpherson registered uris calf shoes at \$9.75 to \$12. If other shoes could get these boots you would have to pay \$6 to \$7 for them. I can't get any other boots that give such satisfaction. Made specially for my own trade. I saw all rips free. Remember this, that we have no opposition in prices.

The Brunswick

Why the Brunswick Method of Reproduction Insures a Superior Phonograph

Reason No. 1 The Brunswick Method of Reproduction includes the Utone, a new conception in playing. The Utone consists of an arrangement of the several necessary reproducing diaphragms upon one tone arm—an all-in-one arrangement, with no attachments—nothing to take off or put on.

At a turn of the hand, the Utone presents to any type of record the proper diaphragm, and needs, the exact weight. Thus the requirements of each type of record are met. The Utone demands no sacrifice in tone, as attachments often do.

Reason No. 2 Equal in importance to reproduction is tone amplification. The Brunswick Method of Reproduction also includes a new idea in acoustics—the Brunswick Amplifier.

Old-time horns were at variance. Some makers still cling to metal construction. Others use a combination of wood and metal cringing as the "throat."

But the Brunswick Amplifier is oval in shape, and built entirely of wood, like a fine violin. It is molded of rare holly-wood. The sound waves receive uniform amplification to reach their fullness, hence the Brunswick tone is richer and more natural. Strident, metallic notes are absent.

We Invite Comparison
Make comparisons. Let your ear decide. Try to find an equal to Brunswick tone.

You're bound to end such a search at a Brunswick shop, where every opportunity will be given you to decide for yourself.

Hear this remarkable instrument before you decide.
