Visited After 50 Years
A prosperous looking party of tourists visited Georgetown in their motor car on Tuesday. In conversation with Reeve Grant, the gentleman of the party, Mr. A. Ramsay, said that he had lived here 50 years ago and as a lad had worked for the late J. B. Day-Good. The sole purpose of his visit was to see the old town again and he was indeed agreeably surprised at the splendid growth and progress Georgetown had made. He said it was the best and prettiest town of its size he had had the pleasure of visiting. In his extended motor tour, Mr. Ramsay, who is now one of Detroit's most prosperous citizens, was accompanied by his wife and two friends from Toronto, Mrs. and Miss Seburn.

You Can't Always Fool Them
Barnham once said: "You can fool some of the people some of the time but not all the people all the time." There has been a lot said about a Urie Calf \$5 plow boot of McPherson's. The reason other plowmen do not use it is because they know it does not make one. The boot referred to is made by Valerine & Martin of Waterloo, and the same boot can be bought in other stores for \$4.50. The W. B. H. boot is made in Kitchener, not by W. B. Hamilton of Toronto. Anyone wishing to make \$25.00 can do so by proving what I say is not true. You can buy boots from \$1 to \$5 cheaper at Rumford's than in the city of Toronto. —Rumford the Shoe Man. It.

Rev. Canon Walsh Dead
After a serious illness of twelve months' duration, Rev. Canon William Walsh passed away at the rectory, Brampton, early Sunday morning. For a period of twenty years Rev. Canon Walsh occupied the pulpit at Christ's Church at Brampton, resigning his charge in June last to the present incumbent, Rev. J. Allen of Whitby. The Rev. gentleman was always closely identified with the work of the Orange Association, and was for many years Chaplain of the Chapter of Black Knights. He was very well known throughout the Province by reason of the keen interest he took in lodge work.

THE FINAL
PHONOGRAPH

The BRUNSWICK PHONOGRAPH Designers began where other phonograph designers left off. It embodies every feature of all other Phonographs from tone to beauty, and has besides a number of new ideas not to be found in any other phonograph. In fact it is the All-Included Musical Instrument and must indeed represent the finished dream of the genius who first invented a talking, singing and playing instrument.

The "Ultona" is a distinctly new creation. At the turn of the hand you adopt it to play any record. It is not an attachment, nothing to take off or put on, the real diamond for the Edison, the real sapphire for the Brunswick or Pathé, the steel or fibre for other records always there.

We want owners of other Phonographs to come in and hear the Brunswick play the records they use and are familiar with.

We mention no details here—You must come and hear it. Prices from \$62.00 to \$275.00.

FIRE PREVENTION DAY, OCTOBER 9th

Prevent Fires
In Your Home
By removing all rubbish and litter. Have your furnace and stove pipes in proper condition. Properly installed Lightning Rods are more than 90% efficient.

In Your Factory and Shop
By removing oily waste and other fire nuisances. Prohibit smoking on the premises. Cleanliness, order and forethought are important factors in reducing fire waste. Provide better and more systematic inspection and watchman service and also more efficient fire-fighting equipment.

In Your Office
Do not leave lighted cigars or cigarettes where they may start a fire. Do not throw a lighted match into the waste paper basket.

In Your School
By teaching the children the danger of fire. Before leaving each night see that there can be no overheated stoves or furnaces. Teach the children not to play with matches.

In Your Church
Have chimneys properly cleaned out before starting your furnace. Never put on an extra log except when someone is on hand to attend to it.
