The Refinement of

Purity

Toapply this "insistence on purity" to sugar, is no easy matter—for nearly all sugars look alike to those not expert in detecting variation. The safe course is to use a sugar that comes from refineries in which purity is a

In the Dominion Sugar refineries the boast is backed by a standing invitation to the public to visit and inspect the plants in which Dominion Crystal Sugar is made.

In Dominion Crystal Sugar the house-wives of Canada have one sugar that can be depended upon for that Purity which is so essential to successful culinary effort. This is the only sugar that may be rightly termed "Canadian from the ground up." We do import the finest raw cane sugar and refine it—but our pride is in the product we make from Canadian sugar beets.

SURPRISE THE FAMILY WITH A

FOR CHRISTMAS

If you are thinking of buying a Phonograph, be sure that you get the LATEST and the BEST. If you don't you will regret it when you SEE and HEAR the Brunswick. People are changing there Phonographs every day to become an

All other Phonographs are old style when you place them beside the Brunswick. People say their next Phonograph will be a Brunswick. Here is QNE reason why: The "Round" All: Wood Horn. You never hourd of a "square" horn in a band, or any musical instrument, or you never saw a square megaphone. We were taught that all sound-waves travel in circles or ovals, yet you will not find any round horn in any of the Old-Style Talking Ma-

Artists sings INTO a round horn and the Brunswick sends it OUT in a round horn. That's a simple "secret," isn't it? Yet no one has eyer made a round Wood Horn before, and more than that, no one lever will because this is one of the exclusive patented feature of the Brunswick.

Here's another reason why:

This wonderful reproducer was designed after all the great Record Libraries were formed. It is not an attachment, it plays any make or type of record without removing or attaching anything, a twist of the wrist and it is ready for any make of record. No needles to change. It plays every record CORRECTLY with just the right needle, just the right weight, describing just the right are accross the record and your needle type records actually last longer.

Since the Brunswick came with this wonderful invention not ice how they all say "Play All Records.," Just you see how they do it,

then investigate the Ultona. You cannot afford to make a mistake and it costs you nothing to Owing to the great demand for the Brunswick Phonograph we ad-

vise you to come in and select your model now, and we will keep it until Christmas for you if you will pay a small deposit down. The halance can be paid by small monthly payments to suit the purchaser.

McClary's Pandora

THE Boiler doesn't crowd the dinner off the I Pandora on wash-days. You can set the boiler either way, across or lengthwise of the top.

There is no guess-work baking either. The oven has a glass door which keeps the baking in full view. The thermometer tells whether the oven is hot enough or not. The oven, as you must have heard, is very evenly heated.

The Pandora is the sort of range you have always wanted. See it. FOR SALE BY
