This Is For You

YOU are interested in the High Cost of Living. Suppose you had to replace your house or the contents of it and buy everything over again. YOU would need double as much money to do it as in September, 1914. Everything has gone up. The purchasing power of the dollar is about the same as in September, 1914. Building costs of all kinds have nearly doubled. Clothing is going up every day. Boots and shoes, furniture, curtains, carpets, food, fuel—everything costs more. Fire may destroy your built-up property any minute. Your \$1000.00 policy 10-day work, by half what it would three years ago. So you need more insurance. One thing in the world has not increased in cost—that, is insurance—the thing you need most.

In short, what you most need in the cheapest thing you can buy—Protection. You need the best kind of protection too. You can have it. The best cost no more than the worst.

Phone me how much more cover you require and we will put it up to-day, or we will call, value your property and give you the necessary protection.

A good idea, adopted by many homes in former years, is for all members of the family to contribute an amount agreed on, and in this way, without anyone assuming a heavy burden, bring into the home one of the finest models of Grafonolas.
