A Greater Georgetown
Line up for Georgetown. You
are needed. See Board of Trade
call to arms.

Georgetown's future is not
doubtful. It is certain.
Your town is entitled to some
of your effort. Join the Board of
Trade.

The Board of Trade is the organ
through which all citizens can pre-
sent their views in all matters of
public welfare. Join it.

Sympathetic criticism is always
welcome but destructive criticism
is base and unkind. Be fair to
your Town Council. Join the
Board of Trade and help them
solve the difficulties.

FOR THE PAST six years the
newspaper business has been in a
very serious state indeed and a
climax is fast approaching. Many
old established and hitherto pros-
perous papers have fallen by the
wayside and many a community is
today poorer for the passing of
the little local weekly. During
the coming year other papers will
have to give up the struggle, for the
ever mounting cost of production
will probably reach its zenith in
1920.

THE NEW COUNCIL would do
well to keep in mind the fact that
it is the steady, faithful attention
to the permanent needs of the com-
munity that in the end counts for
most. There are special things
that may be done to promote the
welfare of the community, but
there are the regular duties and
obligations that call for good judg-
ment and careful administration.
We are glad that our town has been
showing decided signs of growth,
and hope that now and then it
will need a careful, yet progressive,
leadership.

THE MENTAL AND MORAL dis-
turbance due to the war, the resent-
ment felt by the middle classes on
account of the inflated prices, cases
of criminal profligacy—all have
combined to create a condition of
unrest hardly less than that of
war itself. Strikes are everyday
occurrences and the demands of
the workers, in some cases reason-
able, are in others the reverse. Be-
tween the demands of capital and
the claims of labor the lot of
the middleman becomes daily
more arduous. The remedy can
only be found in in-
creased production of wealth in
place of which we have at present
production greatly hampered by
obstinate disputes. It is not pecu-
liar to Canada. It is common to
the civilized world, and is often
likened to the swelling of the sea
that distresses the ship after the
storm has died down. We have
not and conquered more formid-
able enemies and the present
difficulties can and must be settled
if our country is to live. If labor
and capital met together on the
common basis of the Golden Rule
a happy settlement would soon en-
sue.

Church Going**

a churchless community.
Much less would they think of
bringing up a family in such a place.

terest and your attendance and
thus assist in making it a greater
power in The Life of the Commu-
nity.

Milton
We are sorry to report that
Councillor, Wm. Magdocks is
longerously ill with spinal menin-
gitis, arising from the injuries he
received in France, which confined
him to his bed for two years.
Georgetown played an exhibition
game here with the local Intermedi-
ates on Tuesday evening and made
it more interesting than the score,
12 to 8 in favor of Milton, would
indicate.

Farmers of this neighborhood
complain of an unusual shortage
of water, due to a scanty rain-fall
in the latter part of last year and
the freezing of water from running
springs, causing it to spread instead
of following usual courses. Some
farmers are drawing water from
creeks.—Champion.

The by-law to raise \$10,000 by
debentures for the purpose of build-
ing new sidewalks in town and for
waterworks extensions, submitted
to the people on Monday last, was
defeated by 11 votes, 55 voting for
the by-law and 66 against.—Re-
former.
