Borrow to Buy Cattle

"Mixed Farming" is the big money-maker today. Of course, grain and fruit and vegetables pay well—but beef and bacon, butter and cheese, are piling up the profits for the farmer.

Milk more cows—fatten more cattle—raise more hogs. If you need money to do it, come to The Merchants Bank. We are glad to assist all up-to-date farmers.

The Tire It Pays to Buy

Only the good survive. Time's old sickle strews the way with the worthless and the public ostracizes the failures. Tire standards are ever higher and only the best tires can reach up to it. Tires that survive the ordeal of time and experience are the kind it pays to buy.

REALMS OF PERFECTION

Some day the telephone will give. First-off, the number we request. Some day the family will live at lowest prices for the best. Some day no glass strewn in the street. Will cut the tires on which we roll. Some day no arguments we'll meet. On methods for the world's control. But when that day arrives we'll find No need of words one's thoughts to tell. And it will need no daily grind. To buy what earthly vendors sell. The streets of gold will brightly shine. And wings will beat us forth to roam. Who that day comes oh, friend of mine. We'll find that heaven is our home. —Washington Post.

Editorial Notes

DAYLIGHT SAVING is being advocated by many city dwellers this year and it is sure to be strenuously opposed by the farm population. Definite action should be taken by the Dominion Government to prevent such confusion and inconvenience as prevailed last year.

FORTY SEVEN NEW branch banks were opened in Canada during the month of January, while seven branches were closed. In the number of new branches opened the Royal Bank headed the list with thirteen, while the Bank of Nova Scotia was second with six. Four branches each were opened by the Canadian Bank of Commerce, Union Bank, the Standard Bank, three by the Imperial Bank and Dominion Bank, two by the Home Bank, the Bank of Montreal, Merchants Bank, the Banque Provinciale, while the Molsons Bank and the Hochelaga Bank opened one each.

ONTARIO TOWNS large and small, are growing rapidly, and it is a reassuring sign when they realize the importance of correcting the serious mistakes of the past in regard to town planning. This was evidenced by the sending of a deputation to Premier Drury to urge the enactment of legislation to permit the forming of commissions to govern growth and development. By carefully considering this point in the future much can no doubt be accomplished that will make for betterment in all towns. It is certainly worth while doing so, and shows that we are becoming more alive to civic matters. The result will be felt by future generations.

THERE APPEARS to be a sincere desire on the part of the Ontario Government to tackle the problem of Provincial highways in a business-like way, and there will be a general disposition towards heartily approving of the good roads programme announced by Hon. Mr. Biggs for the development of permanent highways throughout Western Ontario. Good roads in Ontario were assured when the farmers began to regard motor cars as necessities of country life rather than luxuries for the rich. It is a good sign and promises much for the future.

THE REPORT of the Minister of Public Works, for the fiscal year ending March 31, 1919, tabled in the Commons, shows a total expenditure of nearly twenty-one million and a half, of which eight and a half million dollars was charged to half appropriation.

The expenditure on ordinary account was one million and a half less than during the previous year. The revenue for the year was \$889,482, an increase of \$108,990 over the previous year.

The Secretary of State's report shows 194 naturalization certificates issued during the year, Swedes being in the majority.

There were 512 companies, with a total capitalization of \$214,828,000, incorporated during the year.

TWENTY-FIVE YEARS ago if any public man had suggested an act of parliament to compel the erection of lightning rods he would have been deemed a ripe subject for an asylum or jail. In those days every farmer on every concession line was counted fair prey for the cupid-ity of the lightning rod agent. During the intervening years, however, studies in investigation and experiment have shown that properly erected and carefully grounded lightning rods and equipment will, beyond any peradventure, protect buildings against loss from fire by lightning. One of the bills to be introduced at the next session of the new Government will be an act to make compulsory the installing of lightning rod equipment on practically all barns, elevators, mills and other buildings housing foodstuffs, which might be erected in the province in the future. And this bill will be presented by a member of the Government.

If enacted this bill will require all such buildings to have lightning rods installed as soon as possible after January 1, 1921. It was enacted in the province in 1891, and as yet it has not returned. Her goitre will not return. Read Miss McDonald's letter.

"Dear Sir,—Having suffered from goitre for years, and hearing of your medicine, I decided to give it a trial, from which I received good results, the goitre disappearing. It is now four years since I took the medicine, and as yet have had no return. I take a pleasure in recommending this remedy to anyone suffering from goitre, for what it has done for me. I am, Yours sincerely, Miss H. McDonald, Toronto, Ontario."

Obituary

MRS. WILLIAM S. HALL

The Redlands, California, Facts gives the following particulars of the death of Mrs. William S. Hall, of that city, formerly of Hornby in this county:— "Mrs. Sarah Hall, wife of W. S. Hall, and mother of Harvey E. Hall, died last night at the family home, 118 Clinton Avenue. While the death was not entirely unexpected it came as a great shock to relatives and friends. Several months ago Mrs. Hall had a severe illness, from which she had never fully recovered, but recently she had much improved. She was taken critically ill a few days ago and was unconscious much of the time Sunday and Monday, slipping away while unconscious. Mrs. Hall was 64 years of age and a native of Halton County, Ontario, Canada, and the family came to Redlands in December, 1899, starting work at once on a home on Clifton Avenue, which they have occupied since. She was a member of the Baptist Church, and for many years active in the work of the women's union of the church. In addition to her husband and son, Mrs. Hall is survived by two brothers and two sisters, residents of Toronto.

There was a man in our town
And he was wondrous wise,
He could unscrewable scrambled eggs,
And make unsalted pies.
But now he's talking to himself
Within a padded-cell—
He tried to figure out a way
To beat the H. C. L.

Suffered from GOITRE for Years. Gu-Solve Banned If for Keeps.

Miss McDonald of Toronto, gladly recommends Gu-Solve to those suffering from goitre. She herself had goitre for years until she used Gu-Solve. Four years ago Gu-Solve banished her goitre and as yet it has not returned. Her goitre will not return. Read Miss McDonald's letter.
