Dance In the Town Hall immediately after the Garden Party. Best of Music.

IF YOU Follow the Crowd You'll land at GEORGETOWN

Go-Ahead Georgetown.

New Premises Purchased—Bakery Being Installed—Second Quarter Accounts Show Substantial Surplus—Five Per Cent. Purchase Dividend.
The following report is taken from the Canadian Co-operator.
The Report and Balance Sheet of the Georgetown and Glenwilliams Co-operative Society, Ltd., (Ont.) for the second quarter, submitted to the meeting of members on the 29th May, again showed gratifying progress and results.
The turnover for the term has increased from \$8,951.08 to \$10,108.08, the net surplus from \$420.87 to \$498.75. Not only were the directors in a position to recommend to the members the declaration of a dividend of five per cent. on purchases, absorbing \$415.25 but to carry \$100 to the reserve and \$88.50 forward to the next quarter.
That the society is being conducted with initiative and enterprise may be inferred from the fact that new and more commodious premises have been purchased during the term and a bakery department is being established, for which a double-deck oven has been secured. Although Georgetown is the smallest community in Ontario in which the organized movement is represented, it has the distinction of being the third affiliated society which has installed a bakery; the others being Sydney Mines, N.S., and Guelph, Ont. At the present time the Society is engaged in the distribution of groceries and provision, flour and feed, household brushes, brooms, crockery, school supplies, fruits, men's overalls, smocks, collars, ties, shirts, socks, gloves, mitts, rain-coats, etc., ladies' overalls and aprons, small goods (toilet and hardware) bread, buns, cakes, etc. During the term the Board has installed a Loan Deposit Account, receiving deposits and purchase dividends on loan to the society, withdrawable at any time on giving the notice required by the rules. The interest payable is at the rate of 4 per cent. per annum. This enterprise not only encourages habits of thrift and provides compensation for the use of money in excess of that paid by banks, but at the same time utilizes working-class resources for the operation of working-class business, instead of the exclusive service of the capitalist system.
