

FOR SALE

(By St. Irfina)

One Ford car with piston rings. Two hind wheels and one front spring. Has no fenders, seat made of plank. Easy on gas, but hard to crank. Carburetor split half way through. Engine missing, like on two. Leaking oil, radiator hose bent. Extra tire, ain't worth a cent. Gasoline tank looking good. Good wind shield, but has no glass. Ten spokes twisted wheels ain't plumb. Three old tires, inner tubes on the bum. Top is gone and the body is made. Radiator twisted, should be glass. Hand axle twisted, in the differential gear. But the horns got a honk, both loud and clear. The transmission gears got an awful squeak. But the steering wheel is hard to bend. Two spark plugs, just bought new. Don't fire any better than the other two. Front lights burn when the weather's hot. Don't know if the tail light is working or not. She's full of carbon, bricks tanks no good. Bought new fan belt, regular Ford hood. Three years old, took in the spring. Got shock absorbers, but they're hard to start in low and stop on high. Has to let the other cars go by. If rights the engine should be re-bored. Then she'd be just as good as a brand new Ford. She's got the speed if you turn her loose. Burns gas, coal oil, or tobacco juice. You can buy her right if you got the tin. She's a helluva good Ford for the shape she's in.

J.A. BALLANTINE Veteran Shoe Repairer

TO THE PEOPLE OF CANADA. THERE are many things which you need not buy unless you choose. But footwear is not among them. You must have shoes. From the standpoint of your health, as well as for comfort and appearance, good shoes are a necessity. And that fact alone places upon the manufacturer of shoes a responsibility which he must at all times appreciate. That responsibility to the Canadian public is shared by the 158 manufacturers of shoes in Canada, from whom you buy nearly \$50,000,000 worth of footwear every year. The fact that we have built up an industry of such magnitude is the best evidence that we do appreciate this responsibility. One may think that our responsibility ends when we have produced footwear of honest value and sincere workmanship, and have placed it on the shelf of the retail store where it is accessible to you. That is one essential service which our industry is called upon to render. But we cannot dismiss our responsibility quite so easily. We believe that we should do more than that. Good shoes are of such daily importance that we ought to make public certain facts and conditions which govern the quality of the product we make, and the value which you receive for your money. We ought to point out clearly the part which you play, and the influence which you exercise, in establishing those conditions. We should urge upon you, your own responsibility in the matter, and show you just how you can help to maintain the quality of the footwear which we offer you. This is the first advertisement of a series which will be devoted to that purpose. Canada produces footwear of every desirable type, and of standard quality in all grades. When you buy Made in Canada Footwear you are assured, at fair prices always, of the utmost that modern skill can produce in Comfort, Service and Style.

SATURDAY TREAT. One of our best selling candies is our Cocoa Egg Candy. A candy made of Cocoa, Figs and Sugar. Not too hard - cut in square pieces and rolled in sugar. DELCO-LIGHT OFFSETS LABOR SHORTAGE. J. A. Johnson, Buffalo Creek, Mont., says: "We bought our Delco-Light in the summer of 1917. Besides saving about 15 hours each week, it has given perfect satisfaction. With the pass at difficulty in securing help we consider it indispensable." Write for Catalogue EVANS & RUSH GEORGETOWN MAKE DELCO-LIGHT YOUR CHOICE

Watered Stock. If we had been paying dividends on "watered stock" - If we had issued stock to shareholders at less than its par value and were asking for revenues to pay dividends on such issues - Then we would expect the public to take the position that we had no right to increased rates! But we have done neither of these things. On the contrary our plant represented, in actual cash invested, up to December 31st 1919, \$16,000,000 more than our combined stock and bond issue. By turning back into the business all surplus earnings, all idle reserve funds, we have kept the demands upon our revenues for dividends and interest down to a minimum - lower in proportion to the investment than any enterprise we know of. But now, with the keen competition for money, we must make sure of such a return on our investment as will attract new capital. An adequate rate for our service is the only means of accomplishing this. No one has found any other solution. THE BELL TELEPHONE COMPANY OF CANADA
