Anniversary and Concert

Anniversary services will be held in Limehouse Presbyterian church on Sunday, Oct. 17th at 11 a. m. and 7 p. m. Rev. Mr. Dodds preacher. On Monday evening, Thanksgiving Day, Oct. 18th, a concert will be held in the church when a dramatic recital of "Silas Marner, the linen weaver," will be given by Rev. E. G. Martin, Bradford. There will be vocal selections also. Admission, 35c.

Fixed for Blocking Road

John Wooten was fined \$2.00 without costs at the Owen Sound police court last week for blocking the road. Wooten had stopped on a narrow bit of road to have a talk with a friend in a motor truck which he met. A motorist came along and wanted past, but it was only after considerable delay of the horn that Wooten moved his horse and wagon. The practice of blocking the road, both by stopping to talk and by heavy wagons that refuse to give an inch of road to a motorist that wants to pass, is too frequent, and the fine of \$2.00 in this case is just a nominal one to serve as a warning.

Any repairing we do that don't give satisfaction bring it back and we will make it right. All our new boots are down in price and we will cut everything to the lowest figure. You can see the Toronto price list in our shop, they are away above our prices in repairing. All kinds of rubber goods repaired. Forget me not, J. Roney, the people's family shoe man. A thousand rumors do not make one single fact

ALL of us must believe the rumors regarding further reduction in footwear prices. If they were founded on fact—or even probability—we would have been ahead of Rumor in announcing the good news.

BUT rumor, as usual, ignores the one fact that controls the situation—that prices to the retailer are governed by the cost of raw materials and labor.

High prices are not of our making or seeking. They have been imposed upon us and you by the tremendously increased cost of every single thing that enters into the making of shoes.

And these high material costs, together with to-day's wage scale, which governs and dictates our shoe prices, show no immediate tendency to permanently seek lower levels.

THAT is why we cannot make any definite promise to you that our prices to the retailer will be any lower this season than those in effect for Spring, 1921, styles.

Responsible Rumor ignores these facts—delights in "sensational news"—and, as is so often the case, hurts everybody indiscriminately until its fallaciousness becomes apparent.

We appreciate our responsibility to you; we want to help towards cheaper living and we are earnestly striving to improve matters. We ask your confidence and belief to encourage us towards that end.

OUR advice to you—and we give it in all sincerity—is to BUY NOW any shoes you need for yourself or your family for Fall and Winter. Don't buy extravagantly or recklessly, but do so carefully and judiciously.

What is the Ultona?

The Ultona is not a phonograph, but it is a very important PART of a very good phonograph.

If you look closely at the Brunswick phonograph you will see a reproducer of an entirely different type than you have seen before, in fact a double reproducer. It is balanced accurately. And it has places for three types of reproducing points. That is the Ultona.

The object is this: to enable you to play the various kinds of records in the proper way—and to get the most musical value out of them. This gives you an opportunity to enlarge your musical library—to extend it in any direction you may desire without added cost or attachments of any kind.

The Brunswick is one of the standard instruments of the present day, beautiful in its cabinet work and admirable in every detail of equipment. You will enjoy hearing it.

Call in and hear the Edison diamond disc records played on the Brunswick. Let our ears be the judge.
