### "The Bloomin' Old Rag Overhead'

A SMALL Union Jack rippled amid the tree tops. There seemed something vallant about it, a gay, won't-be-downhearted spirit, when you heard it a history. A doctor at the Muskoks Free Hospital for Consumptives was talking. "The sad thing is, it's young people, eager, hard-working boys and girls, T.B. attacks usually those who make the best Canadians, because they're ambitious. See that flag ? The fellows in that pavillon were determined to have a flug. Each contributed the little he could. They got the flag, but, poor chaps, they're disappointed—it's so

## DISTRESS IN EUROPE

British Empire Effort to Help Smaller Nations.

Red Cross to Organise Behalf of Orphans-Call to Be Made In Armistice

An urgent appeal for aid to combut the widespread disease and distress in the war-stricken areas in Europe has been made by the League of Red Cross Societies to the nations which have suffered least from the war. In response a War Relief Fund has been undertaken in Great Britain with an Empire-wide appeal for contributions. The Fund is under the immediate patronage of His Majesty the King and has the support of all parts of the Empire.

His Excellency, the Governor-General of Canada, having received communications from London upon this matter, consulted the Prime Minister, and with his approval referred the question to the Canadian Red Cross Society, and it was arranged for an appeal to be made in Canada during Armistice week in November. The Fund will be known as "The British Empire War Relief Fund." · To Make Known the Need.

The Canadian Red Cross Society accepted the task of making this appeal known throughout Canada only in view of the relentless circumstances and the humane desire to | of a large number of peoples. The reasons are numerous and compelling. Large populations are suffering from distress and disease. Millions of innocent children are among them. Even in time of peace great numbers of their people lived close to the bread line. The war drained them of all their surplus resources. Through the years of strife they were denied all but the barest necessities, and their condition now is pitiful indeed. History has repeated itself. The diseases which took such | & fearful toil of human life after the Thirty Years' War, the Seven Years' War (1757-65), and the Napoleonic Wars are again widespread, and now there are millions of people in Galicia, Poland, Jugo-Slavia and Roumania who, in addition to being poverty stricken, are in the direst misery and despair on account of disease. In some twelve countries, most of & which were either our Allies or friendly to the Allied cause, modern civilization is faced with the inevitable consequences of a great war through partial famine and pesti-

A Previous Epidemic. That the epidemic is now one of. alarming proportions and terrible in its effect may be noted from the following quotation from "The Times" "At present the worst results of typhus are confined to Galicia . " hair the schoots are closed, business is at a standstill, and civic life is crippled. The whole community is faced with starvation, whilst the absence of we have a country into which the idea of modern sanitation has never ponetrated; for the most part there towns and villages save wells, whilst cases of typhus and in many instances

whole families are stricken with the disease, and are perforce left to die Many Countries Are Suffering. What is said of Galicia is true

other countries of Europe, such as Esthonia, Lithuania, Lativia, huge territories of the Ukraine, Soviet Russia, Jugo-Slavia and Czecho, Slovakia. Nor is typhus the only affliction. Farm Machinery! Tuberculosis, smallpox, dysentery and relapsing fever are also raviging large areas. Lack of Medical Aid.

These terrible conditions have been called to the attention of the people of the British Empire in a statement by the Right Hon. Arthur J. B.dfour, who, speaking for the Council of the League of Nations, says:

"Men, women and children are dying by thousands, and over vast and civilized areas there are neither medical appliances nor medical skill sufficient to cope with the horrors by which we are faced. Governments have in certain cases done all in their power to bring relief, but there remains a vast field for charitable Eleven Million Orphans.

Dr. Livingstone Farrand, chairman of the Central Committee of the American Red Cross, who has just re-turned from Europe, states that there are 11,000,000 fatherless chil-dren in Europe who face the next few years without hope of adequate care unless outside assistance is given.

For Suffering Children No stronger call could be made humanity than that of suffering chil-dren, and on their behalf particularly the Canadian Red Cross will appeal throughout Canada during Armistice week. Each provincial division of the Red Cross will have charge of the
