Card of Thanks

I hereby convey my sincere thanks to my friends and neighbors for their many kindnesses and sympathy extended to me during my recent sad bereavement caused by the death of my dear Mother,
Mrs. Jas. McCarty

In Memoriam

McGowan—in sad and loving memory of my dear father who departed this life August 17th, 1920, in his 74th year. One year has passed since that sad day. God called him home and away. Forgive him, no we never will. For on our hearts he liveth still. The blow was great the shock severe. We little thought his death so near. And only those who have lost can tell. The pain of parting without farewell. Sadly missed by his loving daughter

Obituary

After a lingering illness for a number of years Mrs. Phoebe Rancier gradually failed. Her death day morning, Aug. 10th, death came as a relief to her sufferings. For some time Mrs. Rancier has been residing with her daughter, Mrs. James McCarty. She leaves one daughter, Mrs. James McCarty and two brothers, Andrew Wheeler of Glen Williams and Robert Wheeler of Georgetown to mourn her loss. Among those from a distance who attended the funeral were Mrs. Thos. Marshall, Mrs. Thos. Lapin, Mrs. James Wylie and Mrs. James Dubbia of Acton and also Mrs. Fred Young of Brantford. There were many floral tributes. The pall bearers were her nephews, Mr. Andrew Dobbie, Mr. Thos. Dobbie, Mr. Ed. Wheeler of Georgetown, Mr. John Wheeler, Mr. Andrew Wheeler Jr. and Mr. James Dobbie of Acton. The remains were interred in Glen Williams cemetery on Friday Aug. 13, the service being conducted by the Rev. Mr. Davidson.

Fire was Incendiary, Opinion of Marshal

Halton Inquiry will be Continued Privately with Oyer's Aid

The public enquiry into the cause and origin of the two barn fires on property of High Loonay which occurred on June 7th last, was held in the Town Hall, Georgetown, on Wednesday, Thursday and Friday of last week. The fire marshal, Mr. E. H. Heaton, of Toronto, presided. Mr. H. G. Meir, barrister, of Georgetown, conducted the case for the Fire Marshal's department and Mr. Nicol Jeffrey, R. O. of Geolph, represented the Halton Union Mutual Fire Insurance Company. Fire Marshal Heaton said he would report to the crown attorney certain facts that have been submitted in evidence. He declared that the circumstances arising during the investigation had not been as clearly established as they might have been. He expressed the opinion that the fires were of incendiary origin and said that neither pains nor money would be spared to bring the perpetrator to justice. The investigation will be continued privately with the assistance of the crown. A more detailed report will appear in our next issue.

Important Changes in High School Courses

In the Lower School and the Middle School not more than eight subjects may be taken in any year. The following subjects are in the Lower School to be a one year course each:—Canadian History, Geography, Algebra, Geometry, Arithmetic, Grammar, Art, Geography, Botany, Zoology. Pass Matriculation will be a two year course in the Middle School. At the Departmental examinations, including Matriculation, the standard for passing will be fifty per cent. on each paper. Credit will be given for any paper on which fifty per cent. is obtained. This provision will also be retro-active. The course for First Class Teachers (formerly the Faculty Entrance) is now a two year course as formerly of all subjects:—English and History, two Mathematical subjects, and two languages or sciences. This First Class Course is likely to be a popular one. The First Class Certificate is bound to be valuable in the future. Of the Lower School examination it is intended that four subjects will be taken in the first year and four in the second year. The school session periods will be fewer but longer. The object is to secure more time for individual work by the pupils. On account of the Adolescent Act which requires pupils to attend school to the age of sixteen, High School fees are abolished, and all secondary schools are now free. The Counties are to pay their share not only of maintenance as formerly, but also of capital expenditure. This will help the towns some.

Glen Williams

We are pleased to see a number of those who were sick recently, around again. Mrs. Wm. Haywood of Brantford is spending a few days at her mother's here, Mrs. John Graham. Mr. and Mrs. Jack Farnsworth and family were visitors of Mr. and Mrs. Joseph Marchant on Sunday. Mrs. Millie Bains of Hamilton has returned home after spending a week and visit with her cousin, Mrs. Wesley Booth of the Glen. The farmers are busy hunting "coons" in their corn fields. Lucky is the man that has his coat in full.

David Henderson, this week. Mr. and Mrs. W. H. Gurney and their son and daughter motored from Wingham on Saturday. Mr. Alex. McDonald, who has been spending a couple of weeks at Wingham, returned home with them. Two of our esteemed and useful citizens, Mr. and Mrs. A. T. Brown celebrated the twentieth anniversary of their marriage at their home on Saturday afternoon. Numbers of intimate friends called during the afternoon and evening to express their felicitations and cordial wishes for added years of happiness of the bride and groom together. For several months Councillor William Leonard Mullin has been seriously ill. Death concluded his sufferings on Tuesday evening. His illness was the result of spinal meningitis from which he suffered a member of the Canadian Engineers' Corps at Vancouver camp in 1914, when he was preparing to go overseas with the first Canadian contingent—Free Press.

Do Your Bit to Prevent Bush Fires

Save Ontario's Forests They're Yours

YOUR co-operation—the co-operation of all the citizens of Ontario—is the biggest need in Ontario Forestry today. History shows that impoverishment and national decline follows from the destruction of a country's forests. Most of the area of this Province is non-agricultural, suited by Nature only for growing trees. This land remains yours but the Government sells the trees. Every summer in Ontario an average area of 425,000 acres of forest land is burnt over, equal to a strip 180 miles long by 5 miles wide. This yearly desolation at the hands of her own people is gradually turning the northern part of the Province into a rocky desert. On thousands of acres, even the soil has been destroyed by fire!

The average yearly number of forest fires in Ontario is about 1,876. The vigilance of the Fire Rangers keeps two-thirds of Ontario's forest fires down to an average size of less than five acres. But the others are big enough to raise the total average to 450 acres.

Forest fires in Ontario are destroying provincial assets of timber and pulp wood upon which the Province relies to help pay her share of Ontario's War Debt. Forest fires destroy fish and game, decrease the regularity of stream flow, cause spring floods, land erosion and the crippling of water powers; turn revenue-producing areas into rock deserts.

Out of every 100 fires in Ontario's forests only three are caused by lightning, while ninety or more are due to man's carelessness. One thousand men scattered over 100,000,000 acres, have little chance of preventing fires. All they can hope to do is to see the smoke in time to check them and get them out before they spread beyond control.

The problem of adequate protection of Ontario's Forests from fire is almost entirely a moral one involving the whole public of Ontario. The vast majority of forest fires are caused by human carelessness due to lack of civic responsibility. The tendency is to leave all the responsibility to the Government for protecting the forests from fire. The Government cannot protect the forests belonging to the people of Ontario unless the people of Ontario cooperate. Forestry needs your patriotism, your public spirit, your regard for the general welfare of Canada.
