## What is a 'Registered' Optometrist

A "Registered" Op-tom etrist, first of all, is a special ist on sight and refraction, who has passed the Government examination, conferring the title, "Registered Optometrist." 'He is one who has devoted time and study, and is especially trained for the scientific and efficient examination of eyes. His training and experience enable him to be musually

skitful in adapting lenses and prisms for the case, improvement

and conservation of eye sight. Eyestrain or defective vision is not a disease. It is physical defect that glasses only will correct. But the registered optometrist is also particularly qualified to detect a diseased eye, in which case he always refers the patient to a physician

Be assured that the "registered" optometrist will never advise glasses poless they will be of material benefit to your eyes. sight and bealth.
